Hillsong Song Sheet For Piano:

Music, Branding and Consumer Culture in Church Tom Wagner, 2019-10-16 Starting as a single congregation in Australia Hillsong Church now has campuses worldwide releases worship music that sells millions of albums and its ministers regularly appear in mainstream media So how has a single church gained such international prominence This book offers an ethnographic exploration of the ways in which music and marketing have been utilised in the pursuit and production of spiritual experience for members of Hillsong Church An experience that has proven to be incredibly popular The main theme of this book is that marketing specifically branding is not just a way to sell religion but rather an integral part of spiritual experience in consumer society Focussing on the London Hillsong church as a case study the use of its own music in tandem with strong branding is shown to be a co and re productive method of organizing patterning and communicating information The church provides the branded material and cultural context in which participants sacred experience of self unfolds However this requires participants to do the work to properly understand and ultimately embody the values associated with the brand This book raises important questions about the role of branding and music in forming modern sacred identities As such it will be of great interest to scholars of Religious Studies Ethnomusicology and Media Studies **Music by Percy**
