Histoire de Charles XII. Histoire de la Russie sous Pierre-le-Grand Voltaire, 1838 In Search of Sacred Time Jacques Le Goff, 2020-05-12 How The Golden Legend shaped the medieval imagination It is impossible to understand the Middle Ages without grasping the importance of The Golden Legend the most popular medieval collection of saints lives Assembled in the thirteenth century by Genoese archbishop Jacobus de Voragine the book became the medieval equivalent of a bestseller In *In Search of Sacred Time* is the first comprehensive history and interpretation of this crucial book Jacques Le Goff who was one of the world's most renowned medievalists provides a lucid and compelling account that shows how The Golden Legend

Christianized time itself reconciling human and divine temporality Authoritative eloquent and original In Search of Sacred Time is a major reinterpretation of a book that is central to comprehending the medieval imagination The Latest Catastrophe Henry Rousso,2016-07-06 The writing of recent history tends to be deeply marked by conflict by personal and collective struggles rooted in horrific traumas and bitter controversies Frequently today's historians can find themselves researching the same events that they themselves lived through This book reflects on the concept and practices of what is called contemporary history a history of the present time and identifies special tensions in the field between knowledge and experience distance and proximity and objectivity and subjectivity Henry Rousso addresses the rise of contemporary history and the relations of present day societies to their past especially their legacies of political violence Focusing on France Germany the United Kingdom and the United States he shows that for contemporary historians the recent past has become a problem to be solved No longer unfolding as a series of traditions to be respected or a set of knowledge to be transmitted and built upon history today is treated as a constant act of mourning or memory an attempt to atone Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences Ultimately The Latest Catastrophe shows how historians at times against their will have themselves become actors in a history still being made *State and Society in Communist Czechoslovakia* Roman Krakovsky,2018-05-30 Across central and eastern Europe after World War II the newly established communist regimes promised a drastic social revolution that would transform the world at great pace and pave the way to a socialist future Although many aspects of this utopian project are well known such as fast paced industrialisation collectivisation and urbanisation the regimes even sought to transform the ways in which their citizens interacted with each other and the world around them Using a unique analytical model based on an amalgam of anthropology sociology history and extensive archival research award winning scholar Roman Krakovsky here considers the Czechoslovakian attempt to reinvent the world time and space included in this all encompassing way Ranging from WWII to the fall of the Berlin Wall his innovative analysis variously considers the impact of Stakhanovism the impossible to achieve production targets intended to assert socialism's future potential the attempt to replace Sunday's Christian attributes with socialist ones and the profound changes brought about to the public and private spheres including the culture of informing and the ways this was circumvented Across a wide range of case studies Krakovsky demonstrates both the far reaching extent of the communist vision and the inherent flaws and contradictions that gradually destabilised it This in depth perspective is vital reading for all scholars of twentieth century history and politics *Legal science, philosophy* Jacques Havet,2019-06-04 No detailed description available for Legal science philosophy **Essais sur l'histoire de France** François Guizot,1884 **The School of Montaigne in Early Modern Europe** Warren Boutcher,2017-03-09 This major two volume study offers an interdisciplinary analysis of Montaigne's Essais and their fortunes in early modern Europe and the modern western university Volume one focuses on contexts from

within Montaigne's own milieu and on the ways in which his book made him a patron author or instant classic in the eyes of his editor Marie de Gournay and his promoter Justus Lipsius. Volume two focuses on the reader-writers across Europe who used the *Essais* to make their own works from corrected editions and translations in print to life writing and personal records in manuscript. The two volumes work together to offer a new picture of the book's significance in literary and intellectual history. Montaigne's is now usually understood to be the school of late humanism or of Pyrrhonian scepticism. This study argues that the school of Montaigne potentially included everyone in early modern Europe with occasion and means to read and write for themselves and for their friends and family unconstrained by an official function or scholastic institution. For the *Essais* were shaped by a battle that had intensified since the Reformation and that would continue through to the pre-Enlightenment period. It was a battle to regulate the educated individual's judgement in reading and acting upon the two books bequeathed by God to man: the book of scriptures and the book of nature. These were becoming more accessible through print and manuscript cultures. But at the same time that access was being mediated more intensively by teachers such as clerics and humanists, by censors and institutions, by learned authors of past and present and by commentaries and glosses upon those authors, Montaigne enfranchised the unofficial reader-writer with liberties of judgement offered and taken in the specific historical conditions of his era. The study draws on new ways of approaching literary history through the history of the book and of reading. The *Essais* are treated as a mobile transnational work that travelled from Bordeaux to Paris and beyond to markets in other countries from England and Switzerland to Italy and the Low Countries. Close analysis of editions, paratexts, translations and annotated copies is informed by a distinct concept of the social context of a text. The concept is derived from anthropologist Alfred Gell's notion of the art nexus: the specific types of actions and agency relations mediated by works of art understood as indexes that give rise to inferences of particular kinds. Throughout the two volumes the focus is on the particular nexus in which a copy, an edition, an extract is embedded and on the way that nexus might be described by early modern people.

Philosophie de l'histoire: hommage offert Maurice Lagueux Sandra Lapointe, Louise

Nadeau, 2017-02-06T00:00:00-05:00 Depuis une trentaine d'années Maurice Lagueux, professeur au Département de philosophie de l'Université de Montréal a oeuvré dans différents domaines de la pensée et de la philosophie de l'architecture aux théories des sciences sociales en passant par la philosophie de l'économie et par la philosophie de l'histoire. Les recherches de Maurice Lagueux dans ce dernier domaine ont récemment donné lieu à la publication d'un ouvrage publié par les Presses de l'Université Laval *Actualité de la philosophie de l'histoire* qui a permis de relancer le débat sur la philosophie spéculative de l'histoire et sur l'epistémologie de l'histoire. Les études réunies ici ne sont limitées ni par le principe d'un rapport direct avec l'œuvre de Maurice Lagueux ni même par une connivence des approches entre ce dernier et les différents auteurs du collectif. Ce qui comptait était de réunir un ensemble de travaux consacrés aux développements récents de la philosophie de l'histoire sans nous cantonner non plus aux débats des trente dernières années. Notre seul souhait était que ce recueil puisse sur le plan

thématique offrir un panorama complet de cette discipline au XX^e siècle et aujourd'hui En résonance avec le pluralisme de son œuvre toutes les contributions qu'on lira ici veulent rendre hommage au travail fondamental de Maurice Laguerre Une première partie est donc consacrée aux recherches de Maurice Laguerre Une seconde partie rassemble les études consacrées aux questions d'epistémologie de l'histoire et de rationalité Une troisième partie présente les dimensions politiques de la philosophie de l'histoire Enfin une dernière partie est dédiée à ses enjeux herméneutiques Le lecteur disposera ainsi d'un tableau qui d'ailleurs n'est pas exhaustif n'en représente pas moins certainement l'une des synthèses les plus importantes publiées en français sur ce sujet

La philosophie de l'histoire Maurice Laguerre, Christian Nadeau, Alexis Lapointe, 2007
