FCC Record United States. Federal Communications Commission, 2015 **Television Violence** P. T. Kelly, 1999 If one culprit is suspected above all others for encouraging society to become more violent and unfeeling it is television This medium which has become so pervasive in the last 50 years seems to play an enormous role in the lives of the vast majority of people But who controls the content which exerts such an enormous influence and to an extent controls the people What are they doing now and what will they be doing tomorrow Is violence essential to sell toothpaste and hamburgers What are our children becoming and what will their children be like Will every child carry a gun or other weapon just waiting for someone to trigger their violent nature and ignite their preprogrammed anger Television Inquiry United States. United States Craig Allen, 2023-05-02 The first history of Spanish language television in the United States In the most comprehensive history of Spanish language television in the United States to date Craig Allen traces the development of two prominent yet little studied powerhouses Univision and Telemundo Allen tells the inside story of how these networks fought enormous odds to rise as giants of mass communication within an English dominated society The book begins in San Antonio Texas in 1961 with the launch of the first Spanish language station in the country From it rose the Spanish International Network SIN which would later become Univision Conceived by Mexican broadcasting mogul Emilio Azcárraga Vidaurreta and created by unsung American television pioneers Univision grew to provide a vast amount of international programming including popular telenovelas and was the first U S network delivered by satellite After Telemundo was founded in the 1980s by Saul Steinberg and Harry Silverman the two networks battled over audiences and saw dramatic changes in leadership Today Univision and Telemundo are multibillion dollar television providers that equal ABC CBS NBC and Fox in scale and stature While Univision remains a beacon of U S television's internationalization Telemundo owned by NBC is a worldwide leader in producing Spanish language programs Using archival sources and original interviews to reconstruct power struggles and behind the scenes intrigue Allen uses this exciting narrative to question monolingual and Anglo centered versions of U S television history He demonstrates the endurance innovation and popularity of Spanish language television arguing that its story is essential to understanding the Latinx history of contemporary America A volume in the series Reframing Media Technology and Culture in Latin o America edited by Hector Fernandez L Hoeste and Juan Carlos Rodriguez

On Hollywood Allen J. Scott, 2018-06-05 Why is the U S motion picture industry concentrated in Hollywood and why does it remain there in the age of globalization Allen Scott uses the tools of economic geography to explore these questions and to provide a number of highly original answers The conceptual roots of his analysis go back to Alfred Marshall's theory of industrial districts and pick up on modern ideas about business clusters as sites of efficient and innovative production On Hollywood builds on this work by adding major new empirical elements By examining the history of motion picture production from the early twentieth century to the present through this analytic lens Scott is able to show why the industry which was initially focused on New York had shifted the majority of its production to Southern California by 1919 He also addresses in detail the bases of Hollywood's long standing creative energies and competitive advantages At the same time the book explores the steady globalization of Hollywood's market reach as well as the cultural and political dilemmas posed by this phenomenon On Hollywood will appeal not only to general readers with an interest in the motion picture industry but also to economic geographers business professionals regional development practitioners and cultural theorists as well
