American Horror Fiction and Class

David Simmons, 2017-09-15 In this book Simmons argues that class as much as race and gender played a significant role in the development of Gothic and Horror fiction in a national context From the classic texts of Edgar Allen Poe and Nathaniel Hawthorne right through to contemporary examples such as the novels of Stephen King and Stephenie Meyer's Twilight Series class remains an ever present though understudied element This study will appeal to scholars of American Studies English literature Media and Cultural Studies interested in class representations in the horror genre from the nineteenth century to the present day

La utopía conservadora

Mario Ramos Vera, 2020-02-07 El conservadurismo ha sido tradicionalmente concebido como contrario a los grandes esquemas abstractos y los ideales de perfección política mientras que lo utópico se ha situado en un orden de promisión o en un no lugar venturoso Esta aparente política entra a una singular paradoja pues existe una utopía conservadora de carácter desiderativo y normativo es decir un anhelo moralizante y un espejocrítico de la realidad de su tiempo frente a los borradores de perfección que aspiran a construir un mundo nuevo y perfecto sobre los rescoldos de un orden anterior El estudio del utopismo conservador que aborda esta obra pretende rebatir la convicción que contrapone políticamente el utopismo y el pensamiento político conservador En última instancia supone la denuncia del reduccionismo ideológico que vincula la utopía con los proyectos totalitarios de transformación social y que al mismo tiempo devalúa la imaginación como elemento de reflexión política ajeno a la defensa conservadora de las tradiciones ideas y prácticas exitosas a lo largo de la historia del pensamiento

Mental Illness in Popular Culture

Sharon Packer MD, 2017-05-24 Being crazy is generally a negative characterization today yet many celebrated artists leaders and successful individuals have achieved greatness despite suffering from mental illness This book explores the many different representations of mental illness that exist and sometimes persist in both traditional and new media across eras Mental health professionals and advocates typically point a finger at pop culture for sensationalizing and stigmatizing mental illness perpetuating stereotypes and capitalizing on the increased anxiety that invariably follows mass shootings at schools military bases or workplaces on public transportation or at large public gatherings While drugs or street gangs were once most often blamed for public violence the upswing of psychotic perpetrators casts a harsher light on mental illness and commands media's attention What aspects of popular culture could play a role in mental health across the nation How accurate and influential are the various media representations of mental illness Or are there unsung positive portrayals of mental illness This

standout work on the intersections of pop culture and mental illness brings informed perspectives and necessary context to the myriad topics within these important timely and controversial issues Divided into five sections the book covers movies television popular literature encompassing novels poetry and memoirs the visual arts such as fine art video games comics and graphic novels and popular music addressing lyrics and musicians lives Some of the essays reference multiple media such as a filmic adaptation of a memoir or a video game adaptation of a story or characters that were originally in comics With roughly 20 percent of U S citizens taking psychotropic prescriptions or carrying a psychiatric diagnosis this timely topic is relevant to far more individuals than many people would admit Best Horror of the Year Ellen Datlow,2015-08-04 For over three decades Ellen Datlow has been at the center of horror Bringing you the most frightening and terrifying stories Datlow always has her finger on the pulse of what horror readers crave Now with the seventh volume of this series Datlow is back again to bring you the stories that will keep you up at night Encompassed in the pages of The Best Horror of the Year have been such illustrious writers as Neil Gaiman Kim Robinson Stephen King Linda Nagata Laird Barron Margo Lanagan And many others With each passing year science technology and the march of time shine light into the craggy corners of the universe making the fears of an earlier generation seem quaint But this light creates its own shadows The Best Horror of the Year chronicles these shifting shadows It is a catalog of terror fear and unpleasantness as articulated by today s most challenging and exciting writers **Gothic Things** Jeffrey Andrew Weinstock,2023-07-04 SHORTLISTED THE ALLAN LLOYD SMITH PRIZE FOR BEST MONOGRAPH Offering an innovative approach to the Gothic Gothic Things Dark Enchantment and Anthropocene Anxiety breaks ground with a new materialist analysis of the genre highlighting the ways that since its origins in the eighteenth century the Gothic has been intensely focused on ominous matter and thing power In chapters attending to gothic bodies spaces books and other objects Gothic Things argues that the Gothic has always been about what happens when objects assume mysterious animacy or potency and when human beings are reduced to the status of just one thing among many more powerful others In exploring how the Gothic insistently decenters the human Jeffrey Andrew Weinstock reveals human beings to be enmeshed in networks of human and nonhuman forces mostly outside of their control Gothic Things thus resituates the Gothic as the uncanny doppelgänger of twenty first century critical and cultural theory lurking just beneath the surface and sometimes explicitly surfacing as it haunts considerations of how human beings interact with objects and their environment In these pages the Gothic offers a dark reflection of the contemporary nonhuman turn expressing a twenty first century structure of feeling undergirded by anxiety over the fate of the human spectrality monstrosity and apocalypse Substituting horror for hope the Gothic Weinstock explains has been a philosophical meditation on human relations to the nonhuman since its inception raising significant questions about how we can counter anthropocentric thought in our quest to live more harmoniously with the world around us **The New Lovecraft Circle** Robert M.
