and Print* Sylvia Brockstieger,Paul Schweitzer-Martin,2023-07-24 A cross cultural comparative view on the transition from a
predominant culture of handwriting to a predominant culture of print in the late medieval and early modern periods is
provided here combining research on Christian and Jewish European book culture with findings on East Asian manuscript
and print culture This approach highlights interactions and interdependencies instead of retracing a linear process from the
manuscript book to its printed successor While each chapter is written as a disciplinary study focused on one specific case
from the respective field the volume as a whole allows for transcultural perspectives It thereby not only focusses on change
but also on simultaneities of manuscript and printing practices as well as on shifts in the perception of media writing
