Vigilance and the Plague Sébastien Demichel, Mark Sven Hengerer, 2024-04-01 This book focuses on the connection between vigilance and the plague in France throughout the 17th and 18th centuries For more than three centuries between the middle of the 14th century up until circa 1670 the prevalence of the plague in France was said to be endemic before it then vanished from French territory The Great Plague of Marseille 1720 1722 which also impacted the rest of Provence the County of Venaissin and Languedoc proved to be an exception During that period the fight against the plague was deemed a top priority along the French coast and health institutions called bureaux de la santé were developed Contributions to this book primarily focus on health vigilance from the standpoint of how to prevent an epidemic and how to respond to a declared epidemic Among the salient themes addressed are communications between health and different state actors prevailing religious and political norms and the popular participation in the fight against the plague The use of the concept of vigilance enables the mobilisation of often rather distant branches of history namely institutional social religious history the history of communication and the history of public health *Revue des deux mondes*, 1867 *Revue des deux mondes* François Buloz, Charles Buloz, Ferdinand Brunetière, Francis Charmes, René Doumic, André Chaumeix, 1915

Les Trois Mondes Jacques Attali, 2014-04-01 Jacques Attali a su ouvrir des perspectives neuves et fécondes tant sur la musique Bruits que sur la médecine l'Ordre cannibale présente ici enfin son grand livre de théorie économique Il n'est aujourd'hui d'autre point de départ possible que la crise Aussi faut-il avant tout dresser l'inventaire jusqu'ici introuvable de toutes les théories existantes de la crise toutes vraies dès lors qu'elles inspirent les politiques effectivement menées par les pouvoirs partout dans le monde Pour les expliquer Jacques Attali distingue entre trois mondes de pensée car nous vivons la fois dans trois réalités Celle de l'échange et de la régulation où la crise n'est qu'un cart hors de l'équilibre Celle de la production où la crise dévoile les contradictions qui sont le moteur de l'Histoire Et le monde nouveau qui sous nos yeux se bauche celui de l'

organisation que l'auteur nous entraîne à découvrir l'ordre y apparaît comme fragile critique des formes et la crise comme un état quasi permanent de recriture Monde de tolérance et de subduction où la fois s'ouvre le danger d'une après-crise totalitaire et s'esquisse la voie pour chapper au cercle touffant des dictatures Au terme de ce parcours blouissant des rites magiques aux empires du potlatch au nucléaire des sacrifices aux ordinateurs de Bruges Tokyo le choix est entre la solitude et la création le suicide et la subduction
