QUESTION 1: REASON WHY THE WORLD WAR I BROKE OUT.

Study the source and answer the questions that follow.

SOURCE A

World War I, also known as the Great War, began in 1914 after the assassination of Archduke Franz Ferdinand of Austria. His murder catapulted into a war across Europe that lasted until 1918. During the conflict, Germany, Austria-Hungary, Bulgaria and the Ottoman Empire (the Central Powers) fought against Great Britain, France, Russia, Italy, Romania, Canada, Japan and the United States (the Allied Powers). Thanks to new military technologies and the horrors of trench warfare, World War I saw unprecedented levels of carnage and destruction. By the time the war was over and the Allied Powers claimed victory, more than 16 million people—soldiers and civilians alike—were dead.

Sugar Ben Richardson, 2015-10-26 There is more sugar in the world's diet than ever before but life is far from sweet for the exploited producers making nature's white gold and the unhealthy consumers eating it Why has the billion dollar sugar trade created such inequities In this insightful analysis Ben Richardson argues that the most compelling answers to this question can be found in the dynamics of global capitalism Led by multinational companies the mass consumption of sweetened snacks has taken hold in the Global South and underpinned a new wave of foreign investment in sugar production The expansion of large scale and highly industrialised farms across Latin America Asia and Africa has kept the price of sugar down whilst pushing workers out of jobs and rural dwellers off the land However challenges to these practices are gathering momentum Health advocates warning against costly diseases like diabetes trade unions fighting for better pay and local residents campaigning for a cleaner environment are all reshaping the way sugar is consumed and produced But to truly transform sugar Richardson contends these political activities must also address the profit driven nature of food and farming itself
