#### **READING COMPREHENSION (30 minutes, 35 questions)**

**Directions:** Read the sample passage and answer the questions below.

The study of history provides many benefits. First, we learn from the past. We may repeat mistakes, but, at least, we have the opportunity to avoid them. Second, history teaches us what questions to ask about the present. Contrary to some people's view, the study of history is not the memorization of names, dates, and places. It is the thoughtful examination of the forces that have shaped the courses of human life. We can examine events from the past and then draw **inferences** about current events. History teaches us about likely outcomes.

Another benefit of the study of history is the broad range of human experience which is covered. War and peace are certainly covered as are national and international affairs. However, matters of culture (art, literature, and music) are also included in historical study. Human nature is an important part of history: emotions like passion, greed, and insecurity have influenced the shaping of world affairs. Anyone who thinks that the study of history is boring has not really studied history.

1. What is the main idea of this passage?
  - A. Studying history helps us to live in today's world.
  - B. Studying history is not just memorization.
  - C. The role of education is to help students deal with real life.
  - D. Students should study both national and international history.
2. In the first paragraph, **inferences** means
  - A. graphs
  - B. articles
  - C. conclusions
  - D. circumferences
3. Which method of teaching history would the author of this passage support?
  - A. Applying historical events to modern society.
  - B. Using flash cards to remember specific facts.
  - C. Weekly quizzes on dates and events.
  - D. Student competitions for most books memorized.
