**Chicano Students and the Courts** Richard R Valencia, 2008-10-01 In 1925 Adolfo Babe Romo a Mexican American rancher in Tempe Arizona filed suit against his school district on behalf of his four young children who were forced to attend a markedly low quality segregated school and won But Romo v Laird was just the beginning Some sources rank Mexican Americans as one of the most poorly educated ethnic groups in the United States Chicano Students and the Courts is a comprehensive look at this community's long standing legal struggle for better schools and educational equality Through the lens of critical race theory Valencia details why and how Mexican American parents and their children have been forced to resort to legal action Chicano Students and the Courts engages the many areas that have spurred Mexican Americans to legal battle including school segregation financing special education bilingual education school closures undocumented students higher education financing and high stakes testing ultimately situating these legal efforts in the broader scope of the Mexican American community's overall struggle for the right to an equal education Extensively researched and written by an author with firsthand experience in the courtroom as an expert witness in Mexican American education cases this volume is the first to provide an in depth understanding of the intersection of litigation and education vis vis Mexican Americans

**When the Saints Come Marching in** Bruce Sacerdote, 2008 I examine academic performance and college going for public school students affected by Hurricanes Katrina and Rita Students who are forced to switch schools due to the hurricanes experience sharp declines in test scores in the first year following the hurricane However by the second and third years after the disaster Katrina evacuees displaced from Orleans Parish appear to benefit from the displacement experiencing a 15 standard deviation improvement in scores The test score gains are concentrated among students whose

initial schools were in the lowest quintile of the test score distribution and among students who leave the New Orleans MSA Katrina evacuees from suburban areas and Rita evacuees from the Lake Charles area eventually recover most of the ground lost during 05 06 but do not experience long term gains relative to their pre Katrina test scores High school age Orleans evacuees have higher college enrollment rates than their predecessors from the same high schools Meanwhile Katrina evacuees from the suburbs experience a 3.5 percentage point drop in their rate of enrollment in four year colleges Those evacuees do not make up for the decline in the subsequent two years Later cohorts of suburban New Orleans evacuees are unaffected The results suggest that for students in the lowest performing schools the long term gains to achievement from switching schools can more than offset even substantial costs of disruption
