Video provides a powerful way to help you prove your point. When you click Online Video, you can paste the embedded video for the video you want to use. You can also type a keyword to search for the video to use. If you find a video you want to use, click the video to insert it into your document. To make a video insert a previously inserted Word document, click the video, click the text box, and click the video. For example, you can insert a video covering covers, flowers, and sidebar. Click Insert and then choose the elements you want from the different galleries.

Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme. When you apply a new theme, your document changes to match the new theme.

Saving in Word with picture controls that show up where you need them. To change the way a picture fits into your document, click the picture and a button for layout options appears next to it. When you work on a picture, you can click the picture to add a row or a column, and then click the plus sign.

Reading is easier, too, in the new reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device.
