Small States and the European Union Lino Briguglio, 2016-06-10 The Economies of European Union Small Member and Candidate States deals with the small states and candidate states of the EU with a focus on their economic structure and performance and the impact of EU membership past actual and potential on the economy The small states to be covered are those with a population of 3 million or less namely Cyprus Estonia Iceland Latvia Lithuania Luxembourg Malta Macedonia Montenegro and Slovenia This title adds to the literature on the EU on regional integration generally and on small states It delves into the special constraints of small economic size and examines why and how the small states of Europe manage to compete albeit not without difficulty with the larger states in the block where free trade prevails The book answers the following research questions What are the special economic development constraints faced by the small states of the EU What policy options have been used by or are available to these small states to address these constraints How can the economic resilience and competitiveness of these states be enhanced Has EU membership been mostly advantageous for these small states What are the economic prospects for these states as EU member states The book is aimed primarily for students of EU affairs and of regional integration in general It will also be useful for students of subjects relating to small states It may also appeal to policy makers of small states and to

The Implementation and Enforcement of European Union Law in Small Member States Ivan Sammut, Jelena Agranovska, 2021-03-11 The objective of this book is to examine how the legal order of Malta the EU's smallest Member State manages to cope with the obligations of the EU's *acquis communautaire*. As far as the legal obligations are concerned size does not matter. Smaller Member States have the same obligations as the largest yet they have to meet these same obligations with very fewer resources. This book examines how the Maltese legal system manages to fulfil its obligations both in terms of the supremacy of EU law as well as how the substantive EU law is transposed and implemented. It also explores how Maltese courts look at EU law and how they manage or not manage to enforce it within the context of national law. It can serve as a model to demonstrate how EU law is being implemented in the smallest Member State and can serve as a basis to study the effectiveness of EU law into the domestic law of its Member States in general.

The Europeanization of Interest Groups in Malta and Ireland Mario Thomas Vassallo, 2016-04-29 This comparative work examines the political and social context of interest groups in Malta and Ireland two small island states at the periphery of an integrated continent. The author explores the impact of the European Union on their civil society's organizations and their gradual transformation at differing speeds and logics of Europeanization.

Malta in the European Union Mark Harwood, 2016-05-13 Malta has bucked the trend of its EU Mediterranean neighbours in many ways. This smallest of EU states barely dipped into recession during the global financial crisis and remains a stable member of the Eurozone whilst also having one of the lowest infringement rates and highest transposition of EU law records amongst the 28 member states. Providing the first comprehensive study of Malta's complex road to EU membership this book looks at the impact of membership on the country's political structures and processes and explains the principal factors that have conditioned the country's Europeanization experience. Reflecting Malta's unique and often contentious road to membership the book explores the historical context and outlines how Maltese processes and policies have changed since membership and whether a causative link exists between these changes and Malta's membership of the EU. A wide range of primary and secondary sources facilitate the study complemented by a series of interviews with a broad range of Malta's political and social actors as well as individuals from EU institutions. This depth of analysis enables a holistic view of Malta's first decade of EU membership and helps establish the fundamental characteristics of Malta's unique Europeanization experience.

Small States and EU Governance Jean Micallef Grimaud, 2017-09-06 This book examines a crucial question about small states and their governments' influence in the European Union: EU decision making processes. Are EU small member state governments influential in EU decision making processes? In other words do they exercise influence in these processes? And if so how and at which stage do they do this? This book seeks to answer the above questions by focusing on Malta the smallest state in the EU and whether it exercises influence in uploading its preferences in two distinct stages of EU legislative decision making processes: decision

shaping formation and decision taking adoption The cases selected and analyzed showcase the Maltese government's behaviour in legislative negotiations in differing EU policy spheres that are extremely relevant to it These are the adoption of EU directives on pyrotechnic articles falling under the EU competition and consumer health and safety policy spheres and on the extension of EU long term residence to beneficiaries of international protection falling under EU immigration policy As analyzed in the latter chapters of the book Malta's government has achieved varying degrees of success in its exercise of influence in these EU decision making processes
