Management Strategies In Athletic Training 4th Edition Athletic:

Management Strategies in Athletic Training Richard Ray, 2005 Updated and invigorated Management Strategies in Athletic Training Third Edition helps readers deal creatively with the management challenges athletic trainers face on the job. Like its predecessor, the new edition uses a case study approach to teach students theories of organization and administration and to apply them to real world situations in the profession of athletic training. The text part of Human Kinetics Athletic Training Education Series is an excellent resource for athletic trainers who want comprehensive knowledge of management theory and practice. The book's organization strategies can also be applied beyond athletic training to a variety of fields related to sports medicine, making it a valuable resource for any sports medicine professional. In addition to 10 updated chapters, Management Strategies in Athletic Training Third Edition offers new sections on finding a job and planning conferences, plus current coverage of health insurance concerns, new administrative standards from the National Athletic Trainers Association (NATA), prescription medications, application of the Americans with Disabilities Act, computer hardware and software applications, reimbursement for athletic training services, and emergency action plans. Designed to encourage critical thinking, Management Strategies in Athletic Training Third Edition opens and closes each chapter with realistic and fascinating case studies presenting real world dilemmas faced by athletic trainers. Students are challenged to analyze and apply the principles in the chapters to solve the kinds of problems they'll face from day to day as professionals. To support learning, the text includes tools such as chapter objectives, boldfaced key terms, review statements for each major section, a running glossary, as well as a complete glossary at the end of the book, chapter summaries, sample administrative forms that readers can both study and adapt to their own work situations, review questions, and an index. Special elements and appendixes also provide direction for deeper study by referring students to Internet resources. Other Athletic Training Education Series texts include sample forms for athletic training program analysis and material on regulations and ethics in athletic training. The instructor guide is loaded with additional case studies, course projects, chapter worksheets, and a sample course syllabus, all of which can be used for organizing classes, testing students' knowledge, and creating exciting learning experiences. A test bank is also included. Human Kinetics Athletic Training Education Series contains five outstanding textbooks, each with its own superb supporting instructional resources. Featuring the work of respected athletic training authorities, the series was created to parallel and expound on the content areas established by the NATA Educational Council. Management Strategies in Athletic Training Third Edition addresses the following NATA content areas: Health Care Administration, Professional Development and Responsibilities, Risk Management and Injury Prevention, and Acute Care of Injury and Illness. To learn more about the books in this series, visit the Athletic Training Education Series Web site at www.HumanKinetics.com/AthleticTrainingEducationSeries. **Management Strategies in Athletic Training** Jeff G. Richard Ray, Jeff G. Konin, 2011-07-20 Management Strategies in Athletic Training Fourth Edition helps current and future athletic trainers deal creatively with the management challenges they will face on the job. Like the previous editions, the fourth edition uses a unique case study approach in teaching students the theories of organization and administration and their applications to real world situations in the profession of athletic training. The text part of Human Kinetics Athletic Training Education Series is an excellent resource for building comprehensive knowledge of management theory as well as the problem solving skills to put it to practical use. The book's organization strategies can also be applied beyond athletic training to a variety of fields related to sports medicine, making it a valuable resource for any sports medicine professional. Management Strategies in Athletic Training Fourth Edition has been significantly improved to align with the Health Care Administration portion of the National Athletic Trainers Association (NATA) Role Delineation Study. With extensive updates and new information, the fourth edition emphasizes the practice of evidence-based medicine and offers 18 new sections of material that include the following: Health care financial management, Injury surveillance systems, Advances in patient charting, Cultural awareness, Marketing a sports medicine practice, OSHA requirements for health care facilities. Designed to encourage critical thinking, the fourth edition of Management Strategies in Athletic Training opens and closes each chapter with realistic and fascinating case studies presenting real world dilemmas faced by athletic trainers. A series of questions at the end of these scenarios challenge students to analyze and apply the principles in the chapters to solve the hypothetical situations and ultimately prepare them for the kinds of problems they will face from day to day as professionals. To support learning, the text includes tools such as chapter objectives, key terms, and review statements, as well as sample administrative forms that readers can both study and adapt to their own work situations. Special elements and appendixes provide direction for deeper study by referring students to Internet resources. Other Athletic Training Education Series texts, sample forms for analysis of athletic training programs, and material on regulations and ethics in athletic training. In addition, the fourth edition covers new material that students will find helpful as they embark on their athletic training careers, such as compensation tips for finding a job and negotiating skills for accepting a job. For instructors, an ancillary package consisting of an instructor guide, test bank, and new image bank will aid in course development. Loaded with additional case studies, course projects, chapter worksheets, and a sample course syllabus, these materials can be used for organizing classes, testing students' knowledge, and creating exciting learning experiences.
