performances and that this may be obtained through the use of multiple stages Noise aspects are investigated and the conclusion is drawn that the amplifier s input capacitance can be smaller than the photodiode s capacitance for optimal performance **Hoover's Handbook of World Business** ,2011 Nuclear News ,1979 **Scientific and Technical Aerospace Reports** ,1991 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database
