Therapeutic Activities for Children and Teens Coping with Health Issues Robyn Hart, Judy Rollins, 2011-05-03 Winner of the American Journal of Nursing Book of the Year 2011 Category Maternal And Child Health Building on children's natural inclinations to pretend and reenact play therapy is widely used in the treatment of psychological problems in childhood. This book is the only one of its kind with more than 200 therapeutic activities specifically designed for working with children and teenagers within the healthcare system. It provides evidence-based age-appropriate activities for interventions that promote coping. The activities target topics such as separation anxiety, self-esteem issues, body image, death, isolation, and pain. Mental health practitioners will appreciate its cookbook format with quickly read and implemented activities.

Hand Function in the Child Anne Henderson, PhD, OTR, Charlane Pehoski, 2005-09-29 This comprehensive resource and clinical guide for students and practicing pediatric therapists features current information on the neurological foundations of hand skills, the development of hand skills, and intervention with children who have problems related to hand skills. Covers foundation and development of hand skills, therapeutic intervention, and special problems and approaches. Is readable, concise, and well-organized with a consistent format throughout. Integrates recent research findings and current thinking throughout the text. Emphasizes neuroscience and the hand's sensory function and haptic perception. Applies neuroscience and development frames of reference throughout. Implications for practice included in each chapter. Presents concepts in the foundation, development, chapters that are linked with the intervention chapters. Seven new chapters reflect current practice in the field and cover cognition, motor skills, handedness, fine motor program for preschoolers, handwriting, evaluation, splinting the upper extremity of the child, pediatric hand therapy, and efficacy of interventions. Extensively revised content throughout includes new research and theories, new techniques, current trends, and new information sources. 9 new contributors offer authoritative guidance in the field. Over 200 new illustrations demonstrate important concepts with new clinical photographs and line drawings. Over 50 new tables and boxes highlight important information. An updated and expanded glossary defines key terms.

Rattled: How to Calm New Mom Anxiety with the Power of the Postpartum Brain Nicole Pensak, 2024-04-30

matrescence noun m tres ents the process of becoming a mother. The physical, psychological, and emotional changes you go through after the birth of your child, largely unexplored in the medical community. Cambridge Dictionary. A Zibby Owens Summer Reading Pick Winner Zibby Awards 2025 Best Book for the Parents Audible's Most Anticipated Reads 2025 in Well Being and Business. Most new mothers bring their infants to the doctor but ignore any distressing feelings or sensations they might themselves have, that sense of being rattled at many moments throughout the day and night. In *Rattled*, Dr. Nicole Pensak shares her own experiences and those of her patients to help new mothers feel informed, validated, and guided through matrescence. After giving birth, a woman often feels like a completely different person.

It may sound dramatic but the rollercoaster of physical and psychological changes affects brain and body in a similar way that adolescence changes us To compound that many women hide these feelings worrying that something is wrong with them Dr Nicole Pensak is here to reassure us that being rattled is normal and not at all surprising After all seismic changes in identity and emotion have occurred Research shows that a woman's brain shifts in real biological ways very quickly after giving birth Many women become hypervigilant for good reason the brain is telling her to stay alert because she has a human to keep alive and safe While these brainpower boosts can cause anxious feelings they can also help to manage the distress and harness the advantages of the postpartum brain In fact this is a time of neuroplasticity when the brain is more receptive to positive reinforcement Trained at Yale and Harvard and certified in perinatal mental health Dr Pensak provides practical and emotional support helping to relieve the anxiety and pressure for perfection in motherhood and paving the way for a better beginning for families and babies She discusses mental health treatment and the upside of therapy during this changing time and offers accessible scientific information relatable anecdotes and strategies for self care The result is a reassuring and practical handbook that new mothers and their families will refer to time and again
