How To Make A Perspective Report:

Investor Relations and ESG Reporting in a Regulatory Perspective Poul Lykkesfeldt, Laurits Louis Kjaergaard, 2022-08-15
Investor Relations and ESG Reporting in a Regulatory Perspective is a comprehensive and detailed practical guide for financial market participants focusing on the stock market written for practitioners by practitioners. The main themes of the book include the challenging integration of investor relations IR and the non financial reporting of environmental social and governance ESG. Further the book provides a comprehensive overview of the complex regulatory framework of the European Union EU related to the financial markets including the expected global trends in this area. This includes financial legislation such as MiFID II MiFIR and MAR along with non financial legislation like the EU's taxonomy CSRD and SFDR. In addition this book explores the non financial reporting standards of GRI TCFD CDSB IBC SASB IRRS and the upcoming ISSB and discusses the UN's Sustainable Development Goals SDGs. In addition the book provides a practical guide regarding IR in special situations e.g. in connection with takeover response manuals. Many professionals working in the fields of IR ESG and communications institutional and retail investors private equity executives venture capitalists investment bankers legal practitioners accountants and auditors financial journalists and politicians. Finally university and business students may benefit from an insight into the dynamics of the financial markets and the direction they are moving a possible inspiration for choosing a future career. **Perspective**, 1999 *How to Write Technical Reports* Lutz Hering, Heike Hering, 2010-10-14

Technical Reports are usually written according to general standards corporate sign standards of the current university or company logical rules and practical experiences. These rules are not known well enough among engineers. There are many books that give general advice in writing. This book is specialised in how to write Technical Reports and addresses not only engineers but also natural scientists computer scientists etc. It is based on the 6 edition published in 2008 by Vieweg in German and is now published as 1 edition by Springer in English. Both authors of the German edition have long experience in educating engineers at the University of Applied Sciences Hannover. They have held many lectures where students had to write reports and took notes about all positive and negative examples that occurred in design reports lab work reports and in theses. Prof. Dr. Lutz Hering has worked for VOLKSWAGEN and DAIMLER and then changed to the University of Applied Sciences Hannover where he worked from 1974 until 2000. He held lectures on Technical Drawing Construction and Design CAD and Materials Science. Dr. Heike Hering worked nine years as a Technical Writer and was responsible for many CAD manuals in German and English. She is now employed at TV NORD Akademie where she is responsible for E Learning projects technical documentation and software training and supervises students who are writing their theses. How to Write Technical and Scientific Reports This textbook introduces all important and necessary knowledge to create written reports or oral presentations about STEM and engineering topics in a professional and efficient manner By showing example structures and right wrong comparisons you will get many practical hints on how to design your own report The examples are mostly derived from works written by the authors and therefore they often deal with mechanical engineering topics There are different sections about frequent mistakes in Technical and Scientific Reports the use of word processors and tools for creating presentations the design of figures and tables as well as the oral presentation of the Technical or Scientific Report also as a short statement In this 3rd edition all texts were revised and updated the sections with references were updated the glossary and index were expanded and Springer Nature SN Flashcards were added to help you to remember the introduced knowledge and to create Technical and Scientific Reports even more efficiently Test your knowledge with questions and answers about the book with Springer Nature Flashcards

Physician-Assisted Death in Perspective Stuart J. Youngner,Gerrit K. Kimsma,2012-07-30 This book is the first comprehensive report and analysis of the Dutch euthanasia experience over the last three decades In contrast to most books about euthanasia which are written by authors from countries where the practice is illegal and therefore practised only secretly this book analyzes empirical data and real life clinical behavior Its essays were written by the leading Dutch scholars and clinicians who shaped euthanasia policy and who have studied evaluated and helped regulate it Some of them have themselves practised euthanasia The book will contribute to the world literature on physician assisted death by providing a comprehensive examination of how euthanasia has been practised and how it has evolved in one specific national and cultural context It will greatly advance the understanding of euthanasia among both advocates and opponents of the practice
