

Notes:

- These single-variable notes apply to: "What characterizes these groups of functions and graphs?"
- All drawings and examples were completed on graph paper. Most were drawings; some were printed and added to the notes as-is.
- The term *curve* or *relation* is used. Words like *line* or *graph* are avoided. *Line* is used to mean "straight" drawings and *curve* means the groups of functions. *Graph* is used and means graphs and regions with it. *Sketch* just says that the set of all the lines meeting at the set of all ends of the equations is called the *graph*.
- Study just with the given (first) coordinate equations, using a graphing calculator.
