The Dominions Office and Colonial Office List for ... Great Britain. Office of Commonwealth Relations, 1940 The Colonial Office List, Comprising Historical and Statistical Information Respecting the Colonial Empire, List of Officers Serving in the Colonies, Etc , 1947 *The Colonial Office List* Great Britain. Colonial Office, 1946 **The National Council for Higher Education and the Growth of the University Sub-sector in Uganda, 2002-2012** Kasozi, A.B.K., 2017-05-05

The National Council for Higher Education NCHE and the Growth of the University Sub sector in Uganda 2002 2012 narrates the experience of the Ugandan NCHE in the establishment development and regulation of higher education institutions in Uganda from 2002 to 2012 In this period student numbers in higher education institutions increased from about 65 000 to some 200 000 and university institutions from about ten to more than triple the number The book discusses the role of a regulatory agency in the delivery of higher education the relations of universities and colleges with such an agency its impact on developing university capacities and leadership in creating and refining higher education ideas The experience of Uganda s regulatory agency the NCHE in those ten years should help both the Ugandan and other African countries higher education stakeholders in sharing lessons learned from this one case study The author sees the roles of regulatory agencies as vital in the initial stages of building a higher education sub sector and in periods of system transitions such as the current journey from elite to mass systems but is of the view that the university remains the home of knowledge creation dissemination and its application in society **Scholars in the Marketplace. The Dilemmas of Neo-Liberal Reform at Makerere University, 1989-2005** Mahmood Mamdani, 2007 Scholars in the Marketplace is a case study of market based reforms at Uganda s Makerere University With the World Bank heralding neoliberal reform at Makerere as the model for the transformation of higher education in Africa it has implications for the whole continent At the global level the Makerere case exemplifies the fate of public universities in a market oriented and capital friendly era The Makerere reform began in the 1990s and was based on the premise that higher education is more of a private than a public good Instead of pitting the public against the private and the state against the market this book shifts the terms of the debate toward a third alternative than explores different relations between the two The book distinguishes between privatisation and commercialisation two processes that drove the Makerere reform It argues that whereas privatisation the entry of privately sponsored students is compatible with a public university where priorities are publicly set commercialisation financial and administrative autonomy for each faculty to design a market responsive curriculum inevitably leads to a market determination of priorities in a public university The book warns against commercialisation of public universities as the subversion of public institutions for private purposes *Colonial Office List ...* , 1939 **Enhancing Innovation in the Ugandan Agri-Food Sector: Robusta Coffee Planting Material & Tropical Fruit Processing** World Intellectual Property Organization, Travis J. Lybbert, Gracious Diiro, Dick Kawooya, Sacha Wunsch-Vincent, 2017 Uganda s innovation performance in recent years has consistently outpaced

other low income and Sub Saharan African countries Though encouraging this nascent progress will only benefit the broader Ugandan population if policy makers address specific constraints in the innovation systems of the critical agri food sector which is hampered by low productivity and profitability In this report we explore these constraints using an agricultural value chains framework with particular focus on the Robusta Coffee Planting Material Pipeline and tropical fruit processing

States and Public Policy Olivier Provini, 2025-08-03 Why did students start paying tuition fees at African universities How did public universities become increasingly expensive for the large numbers of young people they are supposed to be educating This book helps us to understand the reasons for this and reminds us that change is always the result of political compromise The book looks at the higher education reforms carried out since the 1980s in four East African countries with unique historical and political trajectories Uganda Kenya Tanzania and Burundi Through a rigorous well documented analysis the author provides valuable insights into the fundamental political issues facing development actors in the South the transformation of state intervention the training of national elites and the marketing of the education sector particularly through the highly political issue of school fees *Uganda Review* ,1998-05 National Child-focused Policy Research Agenda 2016-2020 ,2016 *Annual Report* Uganda Education Department,1953 Manufacturing Transformation Carol Newman, John Page, John Rand, Abebe Shimeles, Måns Söderbom, Finn Tarp, 2016 This book addresses three questions Why is there so little industry in Africa Does it matter And what can be done about it It gives some of the results of a four year research programme by national and international researchers into what makes firms in low income countries more competitive and what makes countries more attractive to competitive firms The book fills an important gap in development economics and African studies There is no other book on the market devoted to such a comprehensive comparative cross country analysis of Africa's industrialization experience Both the policy conclusions drawn from the comparative analysis and the case studies in their own right will be of substantial interest to readers Policy makers in governments and international development agencies in particular will find the book useful and provocative This is an open access title available under the terms of a CC BY NC SA 3.0 IGO licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations *Health Economics* Barbara McPake, Charles E. M. same principles apply and that it is useful to have some understanding of how different countries organise the health system It provides an understanding of the performance of different health systems from the insurance based approaches in the United States to government funding that is common in Canada and most countries in Europe and the mixed systems that operate in most low income countries This book is ideal for students in public health and related courses for health care professionals and those studying health economics at a more advanced level

Ugandan English Christiane Meierkord, Bebwaa Isingoma, Saudah Namyalo, 2016-10-20 Ugandan English is a variety that has scarcely been noticed in past research This timely volume brings together African and European scholars in a first-ever collection of articles that offer comprehensive discussions of the historical and present-day sociolinguistics of English in Uganda and fine-grained analyses of the structural characteristics of and attitudes to this hitherto largely unknown variety Using rich archive
