National Budget Framework Paper for the Financial Years ... Uganda,2015 **State institutions and leadership in Africa** Irma Taddia,Tekeste Negash,2018-02-01 The central theme of this book is the role of education in the formation of a political class during and after the European colonial period in Africa The volume focuses on the various actors that informed and were part of this process such as African intellectuals and political leaders colonial troops European missionaries and administrators At the same time the collection analyses the historical processes connected to the emergence and development of a new African leadership such as the creation of a colonial school system the transformation of urban spaces the development of new environmental policies and the processes of nation building after independence The volume is made up of twelve contributions four on Ethiopia two on Eritrea two on the Sudan one on Somaliland two on Tanzania and one on Ghana **Sharing Higher Education's Promise beyond the Few in Sub-Saharan Africa** Peter Darvas,Shang Gao,Yijun Shen,Bilal Bawany,2017-11-15 Despite a spectacular expansion of the higher education sector in Sub Saharan Africa the supply of tertiary education has generally failed to keep pace with demand and the region continues to lag all other regions in terms of access to tertiary education This is in part a consequence of deeply entrenched patterns of inequitable access to higher education and the perpetuation of what researchers refer to as elite systems To date access to tertiary education in Sub Saharan Africa has unduly benefitted students drawn from the region s wealthiest households and overall enrollment remains disproportionately male and metropolitan These factors stifle the catalytic potential of higher education corroding its potential for driving economic growth and sustaining poverty reduction Instead patterns of access to tertiary education have generally reinforced and reproduced social inequality instead of eroding its pernicious social and economic effects This report aims to inform an improved understanding of equity in tertiary enrollment in Sub Saharan African countries and to examine the extent to which inequity functions as a bottleneck inhibiting the ability of African universities to effectively drive improvements in overall quality of life and economic competitiveness In our survey of the evidence we also aim to identify which policies most effectively address the challenge of promoting equity of access in SSA tertiary education systems In order to achieve these objectives the report collects generates and analyzes empirical evidence on patterns of equity examines the underlying causes of inequity and evaluates government policies for addressing inequity
