functions are applied in practice are cited throughout the book These examples refer mainly to South African organisations and situations that managers in South Africa and Africa have to deal with to create and sustain a competitive advantage for their organisations The book endeavours to break down the silo effect of seeing the management functions as separate activities This is done by continuously placing the management function at hand in a bigger context This enables learners of management to assess the implications of management decisions on different people processes systems and so on that make up the organisation

the scientific justification offered for that approach and supports arguments for more inclusive and sustainable scholarship of greater relevance to academics managers and other organisational stakeholders **CSSM Exam Prep** CCI,2022-12-30
