Student Diversity, Choice, and School Improvement Charles V. Willie, Ralph Edwards, Michael J. Alves, 2002-12-30 Diversified schools in which students of various racial ethnic and socioeconomic characteristics are balanced have a positive contextual effect on achievement for all groups compared to schools with homogeneous student bodies that tend to help affluent white students and harm poor students and students of color The authors advise school districts convicted for operating segregated schools on how to make all schools schools of choice that must compete for students who enroll in them And it discusses ways of being fair and just in the distribution of educational resources to affluent as well as poor students and to white students as well as students of color School systems that are reluctant to use racial fairness guidelines in the enrollment process are advised to use socioeconomic fairness guidelines because the absence of any enrollment fairness guidelines tends to result in the return to segregation and a dual school system helpful to a few but harmful to many students This book suggests ways of empowering parents and professional educators and it discusses how to achieve a good outcome for urban as well as rural school districts and for large as well as small school systems Among communities mentioned in this study are Cambridge Boston Brockton MA St Lucie County Lee County Hillsborough County including Tampa FL Santa Rosa County CA Seattle WA New Haven CT Rockford IL Milwaukee WI and Charleston County SC **Guide to State Politics**

The New American Story Bill Bradley, 2007-03-27 Politics is stuck writes Bill Bradley in this insightful informative and provocative book about America at a crossroads but idealism isn't dead It can be reawakened What will it take to make America a better stronger truer country asks the bestselling author former Knicks star and onetime presidential candidate Bill Bradley believes that America is at a teachable moment when we are compelled to reevaluate our political system our leadership our agenda as a nation and ourselves as citizens With clarity and urgency Bradley shows why the story we are being told now about who we are as a people is not true He then offers a new story about our nation based on America's rich heritage and his belief in the character of the American people Bradley explores what changes need to be made in our parties in our politics and in citizen activism to ensure America's future He asserts that the American people are ready for the truth and suggests that the party that chooses to embrace this new story will be in power for a generation Writing from his own experience in politics and drawing on his knowledge of history Bradley shows how the Republican Party has built a solid pyramid structure since the 1970s at the base of which are money ideas and media whereas the Democratic Party's structure is an inverted pyramid with too much emphasis put on the need for a charismatic leader to hold the pyramid up Each party for different reasons fails to deal with the real issues that now confront America This informed and inspiring call to action is addressed not only to the parties and elected leaders but to citizens as well Bradley proposes things every American can do to shape our nation's future He points out that if eighty percent of the electorate voted instead of fifty percent it would be the most important change in American politics since women got the vote Now more than ever he says we need to embrace an ethic of connectedness a combination of collective action and individual responsibility to solve our nation's most pressing problems and he argues that the fate of all countries is bound together as never before Writing today with the freedom of a private citizen Bradley provides this transformative and eye opening book about the danger and the promise of America's choice at this crucial moment in the nation's history
