these chapters while accurate do not reflect comprehensively the state of post secondary American education But glaring defects and negative tendencies do exist and continue at all levels and to a degree that demands informed awareness and action The quantitative leap in the student population after 1945 accelerated positive and negative developments Opportunity of education is available but hardly equal opportunity Higher education seems to have become unduly influenced by interests and considerations destructive of quality education Changes need to be considered and consensually implemented now in order to minimize intended and unintended negative consequences *Marriage and Family 91/92* Ollie Pocs,1991 **The Living Church** ,1954 **Daring to Care** Susan Gelfand Malka,2007-11-26 The role of feminism in transforming nursing and women s professional identity
