different regulations laws licensing and requirements for security guards This is especially true regarding the use of deadly
force power of detain arrest and many other legal aspects of being a security guard It is the responsibility of the school
instructor to know the laws relating to security guard activities for the State County or City in which they train and for which
they train These laws and regulations are easy to find and free to print because they are of the public domain While all states
may have different laws almost all states includes in their armed security guard training and educational requirements
firearm knowledge and technical skills so the armed security guard can effectively use a firearm in the defense of self and
others This Armed Security Guard Training Manual was developed to meet the most stringent standard It represents 40
hours of study materials It also includes 10 hours legal section that discusses Weapons and Firearms and the use of deadly
force These 10 hours of the curriculum are modeled after Florida laws which regulates heavily security guard activities This
section constitutes an excellent moral guideline to work from BUT it is your responsibility to research and teach the law of
your state county city as well as ensure that you take the steps you need to meet your state s licensing requirements if there
are any Last but not least this kit as you see it is what we use every day to train our pupils at Safe N Secure **Info Source**
