Subcommittee on Military Construction, Veterans Affairs, and Related Agencies,2015     **Military Construction, Veterans Affairs, and Related Agencies Appropriations for 2016: Hearing: related agencies; American Battle Monuments Commission; Arlington National Cemetery; U.S. Court of Appeals for Veterans Claims; Armed Forces Retirement Home; Outside witness testimony: American Psychological Association** United States. Congress. House. Committee on Appropriations. Subcommittee on Military Construction, Veterans Affairs, and Related Agencies,2015     NATO's Expansion After the Cold War Jan Eichler,2021-01-30 This book analyses the expansion of The North Atlantic Treaty Organization NATO into the post Soviet space after the end of the Cold War Based on an extensive analysis of the literature and government documents including doctrines statements and speeches by the most influential decision makers and other actors it sheds new light on the geopolitical and geostrategic context of the expansion of the military alliance and assesses its impact on international security relations in Europe The first chapter introduces readers to the neo realist approach and develops the methodological basis of the book The following chapters provide a historical overview of the causes and consequences of two waves of eastward NATO enlargement Special attention is paid to the annexation of the Crimea and to Russian hybrid asymmetric warfare Finally thirty years after the end of the Cold War the book notes a disturbing return to militarization in international security relations To counter this process the author calls for a reduction of current international tensions and a new policy of détente     *The Autonomous Administration of North and East Syria: Between A Rock and A Hard Place* Thomas Schmidinger,2020-11-28 This book is based on papers presented at the conference However it is not a typical publication of academic conference proceedings because the topics are not completely congruent with those of the conference Some lectures that could not be held due to travel restrictions related to the coronavirus pandemic were submitted as book contributions In addition I also wrote a short contribution on the Jewish history of the region which has been often neglected in previous presentations of the region The various authors for this volume have been intensively involved with the region in recent years However the authors do not only focus on the situation on the ground but also on the international context of the autonomous administration The conflict in Syria is no longer just a civil war but a transnational conflict with important roles played not only by actors such as Russia or the USA but also Turkey or Iran Given the transnationality of the conflict and the role of the hegemonic powers these authors share thoughtful analyses from very different perspectives It is important to share these diverse views with the world so that the tragic conflict might become more comprehensible This does not mean however that I necessarily advocate each particular position taken by the varied contributors to this book The intent is to offer you multiple perspectives and certainly not a common narrative     *United States Code* United States,2018     *Dragon De-mystified* ,2018-07-01 This book covers

that each of these groups occupy in the US armed services as well as the laws rules and regulations regarding their participation This new edition also provides eleven Lived Experiences that enliven and humanize each chapter and will assuredly inspire readers

**Russian "Hybrid Warfare"** Ofer Fridman, 2018-08-01 During the last decade Hybrid Warfare has become a novel yet controversial term in academic political and professional military lexicons intended to suggest some sort of mix between different military and non military means and methods of confrontation Enthusiastic discussion of the notion has been undermined by conceptual vagueness and political manipulation particularly since the onset of the Ukrainian Crisis in early 2014 as ideas about Hybrid Warfare engulf Russia and the West especially in the media Western defense and political specialists analyzing Russian responses to the crisis have been quick to confirm that Hybrid Warfare is the Kremlin's main strategy in the twenty first century But many respected Russian strategists and political observers contend that it is the West that has been waging Hybrid War Gibrinaya Voyna since the end of the Cold War In this highly topical book Ofer Fridman offers a clear delineation of the conceptual debates about Hybrid Warfare What leads Russian experts to say that the West is conducting a Gibrinaya Voyna against Russia and what do they mean by it Why do Western observers claim that the Kremlin engages in Hybrid Warfare And beyond terminology is this something genuinely new

**African Peace Militaries** David

Francis, 2017-08-16 This book provides a critical understanding of the emerging role of African militaries in peacetime democratic Africa. This book departs from the dominant perspective which simply presents the military as an enemy of democracy because of the history and legacy of unending military coups d'états and interventions in civilian politics. In the context of Africa, the military has been blamed or largely held responsible for instigating wars, armed conflicts, political violence, poverty, and underdevelopment due to bad governance and mismanagement of the state. Drawing from diverse case studies across Africa including Nigeria, Rwanda, Uganda, Ethiopia, and Egypt, this volume presents the argument that though the military has played a negative and sometimes destructive role in undermining constitutional rule and the overthrow of democratic civilian governments, the same military now operating in a changed global environment is making effort to support the development of democracy and democratic consolidation as well as remain subjected to civilian democratic oversight and control. Notwithstanding the real challenge for this emerging trend of African peace militaries is the extent to which they are able to fulfil on a predictable and consistent basis their constitutional mandate to defend the people against elected autocrats in Africa who try to use the military to perpetuate themselves in power. This work fills a critical gap in the literature and will be of much interest to students of African security and politics, peace and conflict studies, security studies, and IR in general.

Bounded Integration Aviad Rubin, 2020-12-01 In this comparative study of the religion-state relationship in Turkey and Israel in the modern era, *Bounded Integration* reveals the influence this dynamic interaction has had on democratic performance in both countries. In societies where a dominant religion serves as an important component of individual and collective identity, the imposition of secular policies from above may not facilitate democratization but may rather impede the embedding of democracy in society. Moreover, the inclusion or exclusion of religion following statehood may facilitate a certain type of path-dependent political culture, one with long-term political consequences. Aviad Rubin's refreshing analytical approach, comparing and contrasting the region's only two longstanding democratic entities and the dynamics of religion and the state in two different religions, Islam and Judaism, facilitates generalizable lessons for emergent political regimes in the post-Arab Spring Middle East.

Defense White Paper, **The Russian Understanding of War** Oscar Jonsson, 2019-11-01 This book analyzes the evolution of Russian military thought and how Russia's current thinking about war is reflected in recent crises. While other books describe current Russian practice, Oscar Jonsson provides the long view to show how Russian military strategic thinking has developed from the Bolshevik Revolution to the present. He closely examines Russian primary sources, including security doctrines and the writings and statements of Russian military theorists and political elites. What Jonsson reveals is that Russia's conception of the very nature of war is now changing as Russian elites see information warfare and political subversion as the most important ways to conduct contemporary war. Since information warfare and political subversion are below the traditional threshold of armed violence, this has blurred the boundaries between war and peace. Jonsson also finds that Russian leaders have particularly since 2011-12 considered

themselves to be at war with the United States and its allies albeit with non violent means This book provides much needed context and analysis to be able to understand recent Russian interventions in Crimea and eastern Ukraine how to deter Russia on the eastern borders of NATO and how the West must also learn to avoid inadvertent escalation Netnography Unlimited Robert V. Kozinets, Rossella Gambetti, 2020-12-29 Netnography has become an essential tool for qualitative research in the dynamic complex and conflicted worlds of contemporary technoculture Shaped by academic fields industries national contexts technologies and platforms and languages and cultures for over two decades netnography has impacted the research practices of scholars around the world In this volume 34 researchers present 19 chapters that examine how they have adapted netnography and what those changes can teach us Positioned for students and researchers in academic and professional fields this book examines how we can better use netnographic research to understand the many ways networked technologies affect every element of contemporary business life and consumer existence Netnography Unlimited provides an unprecedented new look at netnography From COVID 19 to influencer empathy gambling and the Dark Web to public relations and the military AI and more than human netnography to video streaming and auto netnography there has never been a wider or deeper treatment of technocultural netnographic research in one volume Readers will learn what kind of work they can do with netnography and gain an up to date understanding of the most pressing issues and opportunities This book is a must read for those interested in technology research methods and contemporary culture *Congressional Record* United States.
