

Properties of Parabolas

- The graph of $y = ax^2 + bx + c$ is a parabola when $a \neq 0$.
- When $a > 0$, the parabola opens up. When $a < 0$, the parabola opens down.
- The axis of symmetry is the line $x = -\frac{b}{2a}$ from completing the square
- The x -coordinate of the vertex is $-\frac{b}{2a}$. The y -coordinate of the vertex is the value of y when $x = -\frac{b}{2a}$, or $y = f\left(-\frac{b}{2a}\right)$
- The y -intercept is $(0, c)$.

$$y = ax^2 + bx + c, a > 0$$

$$y = ax^2 + bx + c, a < 0$$

Cameos for Calculus Roger B. Nelsen, 2015-12-31 A thespian or cinematographer might define a cameo as a brief appearance of a known figure while a gemologist or lapidary might define it as a precious or semiprecious stone This book presents fifty short enhancements or supplements the cameos for the first year calculus course in which a geometric figure briefly appears Some of the cameos illustrate mainstream topics such as the derivative combinatorial formulas used to compute Riemann sums or the geometry behind many geometric series Other cameos present topics accessible to students at the calculus level but not usually encountered in the course such as the Cauchy Schwarz inequality the arithmetic mean geometric mean inequality and the Euler Mascheroni constant There are fifty cameos in the book grouped into five sections Part I Limits and Differentiation Part II Integration Part III Infinite Series Part IV Additional Topics and Part V Appendix Some Precalculus Topics Many of the cameos include exercises so Solutions to all the Exercises follows Part V The book

concludes with references and an index Many of the cameos are adapted from articles published in journals of the MAA such as The American Mathematical Monthly Mathematics Magazine and The College Mathematics Journal Some come from other mathematical journals and some were created for this book By gathering the cameos into a book the Author hopes that they will be more accessible to teachers of calculus both for use in the classroom and as supplementary explorations for students
