Language and Institutional Identity in the Post-Apartheid South African Higher Education Leketi

Makalela, 2022-03-21 This book examines the intersections between education identity formation and language in post apartheid South Africa with specific attention to higher education It does so against the backdrop of the core argument that the sector plays a critical role in shaping re producing and perpetuating sectoral class sub national and national identities which in turn in the peculiar South African setting are almost invariably analogous with the historical fault lines determined and dictated by language as a marker of ethnic and racial identity The chapters in the book grapple with the nuances related to these intersections in the understanding that higher education language policies overt and or covert largely structure institutional cultures or what has been described as curriculum in higher education institutions Together the chapters examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing and perpetuating or deconstructing ethnolinguistic identities upon which the sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education *English in Business and Commerce* Tamah Sherman, Jiri

raciolinguistics and the cultural politics of English and dialogues between these fields It challenges long held concepts underpinning existing research from the global North by highlighting how they do not transfer and apply to identity politics of language in South Africa It sketches out how these struggles for belonging are reflected in marginalisation and empowerment and a vast range of local global and glocal identity trajectories Ultimately it offers a first lens through which global scholarship on English as a lingua franca can be decolonised in terms of disciplinary limitations geopolitical orientations and a focus on the politics of race that characterize the use of English as a lingua franca all over the world This book will be of interest to students and researchers in linguistic anthropology sociolinguistics World Englishes ELF and African studies

Extended Curriculum Programmes Tennyson Mgutshini,2022-04-30 The introduction of ECPs in South African Universities is seen by many as South Africa s key strategy for addressing the problem of poor patterns of student success and has its basis on the uncontested acceptance that an extended study duration may be necessary to bring some categories of learners to a level of parity with the readiness expectations of their course of study Even so this transformative strategic imperative has been plagued by a range of challenges that include poor systems readiness poor selection mechanisms in the identification of ECP students poor numeracy and literacy amongst students and indifferent teacher involvement in ECPs This volume offers a rare insight into many of the above recognised challenges and in so doing provides critical matter for thought for educators within the higher education sector

media landscape and why the experienced levels of media diversity by the majority South African audience remain so woefully low While media diversity is usually measured by policymakers sector stakeholders or by market related imperatives this book foregrounds the perspective of the media consumer In doing so traditional media measuring is inverted leading to a more in depth understanding of how ordinary people in the Global South receive media content how much and why The authors offer a holistic analysis of the ineffectuality of key media policymaking processes projects and institutions while also suggesting how these could be transformed to create a more diverse and broadly accessible media landscape
