John Laband

Isizulu June 2014 Grade 11:

Handbook of Literacy in Africa R. Malatesha Joshi, Catherine A. McBride, Bestern Kaani, Gad Elbeheri, 2023-07-28 This volume highlights the shortcomings concerning literacy development in Africa and collates the current available literature based on empirical research in various countries in a coherent manner Further emphasized is how the current research can guide practical information to improve the literacy situation in Africa The research studies will encompass various fields such as linguistics neurosciences and education and will provide future research directions and instructional recommendations to improve the literacy situation in Africa

Zulu Warriors John Laband, 2014-05-27 Toward the end of the nineteenth century the British embarked on a concerted series of campaigns in South Africa Within three years they waged five wars against African states with the intent of destroying their military might and political independence and unifying southern Africa under imperial control This is the first work to tell the story of this cluster of conflicts as a single whole and to narrate the experiences of the militarily outmatched African societies Deftly fusing the widely differing European and African perspectives on events John Laband details the fateful decisions of individual leaders and generals and explores why many Africans chose to join the British and colonial forces The Xhosa Zulu and other African military cultures are brought to vivid life showing how varying notions of warrior honor and manliness influenced the outcomes for African fighting men and their societies
