Islam And Romanticism Muslim Currents From Goethe To Emerson:

Islam and Romanticism Jeffrey Einboden, 2014-11-06 Revealing Islam's formative influence on literary Romanticism this book recounts a lively narrative of religious and aesthetic exchange mapping the impact of Muslim sources on the West's most seminal authors Spanning continents and centuries the book surveys Islamic receptions that bridge Romantic periods and personalities unfolding from Europe to Britain to America embracing iconic figures from Goethe to Byron to Emerson as well as authors less widely recognized such as Joseph Hammer Purgstall Broad in historical scope Islam and Romanticism is also particular in personal detail exposing Islam's role as a creative catalyst but also as a spiritual resource with the Qur'an and Sufi poetry infusing the literary publications but also the private lives of Romantic writers Highlighting cultural encounter rather than political exploitation the book differs from previous treatments by accenting Western receptions that transcend mere Orientalism finding the genesis of a global literary culture first emerging in the Romantics early appeal to Islamic traditions *Christian-Muslim Relations. Romanticism and Religion Jeffrey W. Barbeau,2021-10-21 The first survey of the connections between literature religion and intellectual life in the British Romantic period **Emerson and the History of Rhetoric** Roger Thompson,2017-11-08 Much has been written about Ralph Waldo Emerson s fundamental contributions to American literature and culture as an essayist philosopher lecturer and poet But despite wide agreement among literary and rhetorical scholars on the need for further study of Emerson as a rhetorical theorist little has been published on the subject This book fills that gap reenvisioning Emerson s work through his significant engagement with rhetorical theory in the course of his career and providing a more profound understanding of Emerson s influence on American ideology Moving beyond dominant literary critical thinking Thompson argues that for Emerson rhetoric was both imaginative and nonsystematic This book covers the influences of rhetoricians from a range of periods on Emerson s model of rhetoric Drawing on Emerson s manuscript notes journal entries and some of his rarely discussed essays and lectures as well as his more famous works the author bridges the divide between literary and rhetorical studies expanding our understanding of this iconic nineteenth century man of letters

Faces of Muhammad John Tolan, 2019-06-11 Heretic and impostor or reformer and statesman The contradictory Western visions of Muhammad In European culture Muhammad has been vilified as a heretic an impostor and a pagan idol But these aren t the only images of the Prophet of Islam that emerge from Western history Commentators have also portrayed Muhammad as a visionary reformer and an inspirational leader statesman and lawgiver In *Faces of Muhammad* John Tolan provides a comprehensive history of these changing complex and contradictory

visions Starting from the earliest calls to the faithful to join the Crusades against the Saracens he traces the evolution of Western conceptions of Muhammad through the Reformation the Enlightenment and the nineteenth and twentieth centuries and up to the present day Faces of Muhammad reveals a lengthy tradition of positive portrayals of Muhammad that many will find surprising To Reformation polemicists the spread of Islam attested to the corruption of the established Church and prompted them to depict Muhammad as a champion of reform In revolutionary England writers on both sides of the conflict drew parallels between Muhammad and Oliver Cromwell asking whether the prophet was a rebel against legitimate authority or the bringer of a new and just order Voltaire first saw Muhammad as an archetypal religious fanatic but later claimed him as an enemy of superstition To Napoleon he was simply a role model a brilliant general orator and leader The book shows that Muhammad wears so many faces in the West because he has always acted as a mirror for its writers their portrayals revealing more about their own concerns than the historical realities of the founder of Islam

Global Sufism Francesco Piraino, Mark Sedgwick, 2019-11-01 Sufism is a growing and global phenomenon far from the declining relic it was once thought to be This book brings together the work of fourteen leading experts to explore systematically the key themes of Sufism's new global presence from Yemen to Senegal via Chicago and Sweden The contributors look at the global spread and stance of such major actors as the Ba Alawiyya the Afropolitan Tijaniyya and the Glen Movement They map global Sufi culture from Rumi to rap and ask how global Sufism accommodates different and contradictory gender practices They examine the contested and shifting relationship between the Islamic and the universal is Sufism the timeless and universal essence of all religions the key to tolerance and co-existence between Muslims and non-Muslims Or is it the purely Islamic heart of traditional and authentic practice and belief Finally the book turns to politics States and political actors in the West and in the Muslim world are using the mantle and language of Sufism to promote their objectives while Sufis are building alliances with them against common enemies This raises the difficult question of whether Sufis are defending Islam against extremism supporting despotism against democracy or perhaps doing both

Fracture Feminism David Sigler, 2021-08-01 Feminist writers in British Romanticism often developed alternatives to linear time Viewing time as a system of social control writers like Mary Wollstonecraft Anna Barbauld and Mary Shelley wrote about current events as if they possessed knowledge from the future *Fracture Feminism* explores this tradition with a perspective informed by Lacanian psychoanalysis and Derridean deconstruction showing how time can be imagined to contain a hidden fracture and how that fracture when claimed as a point of view could be the basis for an emancipatory politics Arguing that the period's most radical experiments in undoing time stemmed from the era's discourses of gender and women's rights *Fracture Feminism* asks to what extent could women belong to their historical moment given their political and social marginalization How would voices from the future interrupt the ordinary procedures of political debate What if utopia were understood as a time rather than a place and its time were already inside the present

Orientalism Daniel Martin Varisco, 2017-04-11 The late Edward Said remains one of the most influential critics and public intellectuals of our time with lasting contributions to many disciplines. Much of his reputation derives from the phenomenal multidisciplinary influence of his 1978 book *Orientalism*. Said's seminal polemic analyzes novels, travelogues, and academic texts to argue that a dominant discourse of West over East has warped virtually all past European and American representation of the Near East. But despite the book's wide acclaim, no systematic critical survey of the rhetoric in Said's representation of Orientalism and the resulting impact on intellectual culture has appeared until today. Drawing on the extensive discussion of Said's work in more than 600 bibliographic entries, Daniel Martin Varisco has written an ambitious intellectual history of the debates that Said's work has sparked in several disciplines, highlighting in particular its reception among Arab and European scholars. While pointing out Said's tendency to essentialize and privilege certain texts at the expense of those that do not comfortably fit his theoretical framework, Varisco analyzes the extensive commentary the book has engendered in Oriental studies, literary and cultural studies, feminist scholarship, history, political science, and anthropology. He employs critical satire to parody the exaggerated and pedantic aspects of postcolonial discourse, including Said's profound underappreciation of the role of irony and reform in many of the texts he cites. The end result is a companion volume to *Orientalism* and the vast research it inspired. Rather than contribute to dueling essentialisms, Varisco provides a path to move beyond the binary of East versus West and the polemics of blame. Reading *Orientalism* is the most comprehensive survey of Said's writing and thinking to date. It will be of strong interest to scholars of Middle East studies, anthropology, history, cultural studies, postcolonial studies, and literary studies.
