**Transnational Land Grabs and Restitution in an Age of the (De-) Militarised New Scramble for Africa: A Pan African Socio-Legal** Warikandwa, Tapiwa V., Nhemachena, Artwell, 2017-09-26 One of the fundamental challenges in deconstructing rethinking and remaking the world from a Pan African vantage point is that some captives have tended to delight in the warmth of the imperial predator's mouth. In other words, some captives forget that the imperial predator's mouth gets warm because empire is eating and heating up from prey on the continent. De Militarisation Transnational Land Grabs and Restitution in an Age of the New Scramble for Africa: A Pan African Socio-Legal Perspective is a book that knocks on key aspects relating to land militarisation, a Post-African World Order, and a chaotic Post-God World Order which require critical scholarly and policy attention in the quest to free Africa from centuries-old imperial depredations. The book carefully navigates the imperial entrapments which are designed to focus African attention only on decolonising African minds without also engaging in the imperially more unsettling decolonisation of African materialities.

**A Leap of Faith** Jenny La Sala, 2018-11-27 A Leap of Faith is a collection of brotherhood and sisterhood of military veterans post 9/11 each with their own story to share and suffering from PTSD to IED injuries. Each Soldier faced varying hurdles on their journey leading up to the military and transitioning back to civilian life. The women Veterans revealed a special vulnerability undergoing the drastic change and uncomfortable truths about double standards regarding gender in the military. It is our desire that these stories will deepen the understanding of how poorly the military prepares its Soldiers for the high stakes shift from deployment back to civilian life. As I interviewed the men and women who served in Iraq and Afghanistan, they all came back with the same message: And that was after America was attacked on 9/11, they wanted to do something to help and enlisted in the military. It was in that moment that I realized they each took a leap of faith not knowing what was ahead of them. But they knew what they were leaving behind and were intent on protecting it, hence the book title emerged as A Leap of Faith: The Men and Women Who Served Post 9/11. Their faith also emerged as strength and resonates through their incredible stories. Each veteran story is preceded by their favorite Psalm. Army RD & A., 1964 **Army & Navy Academy** Alexander Mui, 2017-05-08 Once a staple of American society, military schools are a dying breed with fewer than thirty remaining. Historically, most military academies existed in the South and along the East Coast. However, Colonel Thomas A. Davis pushed this tradition westward when he founded the San Diego Army and Navy Academy in 1910. Davis pioneered a novel education and leadership training structure for young men that predated the Boy Scouts and JROTC.

Program From this single institution sprang the Brown Military Academy Davis Military Academy San Diego Military Academy and more Author Alexander Mui chronicles the endurance of this revered academy through countless trials wars economic depressions and the nationwide military school decline until it remained the last traditional military academy west of the Rocky Mountains     **Army Sustainment** ,2014 The Department of the Army s official professional bulletin on sustainment publishing timely authoritative information on Army and Defense sustainment plans programs policies operations procedures and doctrine for the benefit of all sustainment personnel     **Military Construction, Veterans Affairs, and Related Agencies Appropriations for 2014** United States. Poindexter,2015-09-02 Carl Von Clausewitz described the purpose of war as the compulsory submission of the enemy to our will Unlike conventional military conflicts of the past war in the information age is more a battle of wills than artillery and doesn t necessarily end with decisive conclusions or clear winners Cyber warfare between nations is conducted not only without the consent or participation of citizens but often without their knowledge with little to see in the way of airstrikes and troop movements The weapons are information systems intelligence propaganda and the media The combatants are governments multinational corporations hackers and whistleblowers The battlefields are economies command and control networks election outcomes and the hearts and minds of populations As with Russia s bloodless 2014 annexation of the Crimea the cyberwar is fought before the infantry arrives Written by a United States intelligence community insider this book describes the covert aspects of modern wars and the agencies who fund and fight them     **Tyranny of the Minority** Steven Levitsky,Daniel Ziblatt,2023-09-12 NEW YORK TIMES BESTSELLER A call to reform our antiquated political institutions before it s too late from the authors of How Democracies Die Levitsky and Ziblatt write with terrifying clarity about how the forces of the right have co opted the enshrined rules to exert their tyranny The Washington Post ONE OF THE CALIFORNIA REVIEW OF BOOKS TEN BEST BOOKS OF THE YEAR A NEWSWEEK BEST BOOK OF THE YEAR America is undergoing a massive experiment It is moving in fits and starts toward a multiracial democracy something few societies have ever done But the prospect of change has sparked an authoritarian backlash that threatens the very foundations of our political system Why is democracy under assault here and not in other wealthy diversifying nations And what can we do to save it With the clarity and brilliance that made their first book How Democracies Die a global bestseller Harvard professors Steven Levitsky and Daniel Ziblatt offer a coherent framework for understanding these volatile times They draw on a wealth of examples from 1930s France to present day Thailand to explain why and how political parties turn against democracy They then show how our Constitution makes us uniquely vulnerable to attacks from within It is a pernicious enabler of minority rule allowing partisan minorities to

consistently thwart and even rule over popular majorities Most modern democracies from Germany and Sweden to Argentina and New Zealand have eliminated outdated institutions like elite upper chambers indirect elections and lifetime tenure for judges The United States lags dangerously behind In this revelatory book Levitsky and Ziblatt issue an urgent call to reform our politics It s a daunting task but we have remade our country before most notably after the Civil War and during the Progressive Era And now we are at a crossroads America will either become a multiracial democracy or cease to be a democracy at all      **The Budget and Economic Outlook** ,2011      **A Day-by-Day Chronicle of the 2013-2016 Ebola**

**Outbreak** Stephan Gregory Bullard,2018-04-12 This powerful history describes the daily progression of the Ebola outbreak that swept across West Africa and struck Europe and America from December 2013 to June 2016 A case study on a massive scale it follows the narratives of numerous patients as well as the journey of physicians and scientists from discovery to action and from tracking to containment The unfolding story reveals ever shifting complexities such as the varied paths the infection took from country to country the multiple responses of community members and the occurrence of flare ups when the outbreak was seemingly over The book s finely documented present tense reporting records key facts events and observations including Routes of Ebola transmission incubation symptoms short and long term effects on survivors Early attempts to understand and contain the virus and curb practices contributing to its spread Medical governmental and public responses from local education programs to global efforts Communication and conflict between healthcare workers and communities Social and economic outcomes of Ebola in the affected nations Ebola remains incurable although a vaccine is now available For members of the medical community public health officials medical historians scholarly professionals and interested laypeople A Day by Day Chronicle of the 2013 2016 Ebola Outbreak makes starkly clear what we can learn from these events not only for future outbreaks of Ebola but also for the emergence of as yet unknown diseases      Reawakening
