The World of Maritime and Commercial Law Charles Mitchell, Stephen Watterson, 2020-04-30 This collection of 20 essays contains recent work by legal scholars practitioners and judges all internationally renowned for their expertise in the fields of maritime and commercial law For maritime lawyers the book contains absorbing and important studies of the law governing maritime collisions carriage of goods by sea examining the meaning of actual carriage in the Hamburg Rules and the complex web of rules that governs multimodal carriage and marine insurance discussing the history of the doctrine of utmost good faith and jurisdiction clauses in cargo policies In the

area of private international law there are chapters on the choice of law rules affecting the ownership of ships and on recent cases where conflict of laws issues have been decided by the Privy Council For generalist commercial lawyers there is a wealth of scholarship on the Sale of Goods Act 1979 its provisions and scope and on the rules of contractual interpretation their history content and application in commercial settings In addition there are chapters on negotiating damages for breach of contract illegality tracing misapplied funds the application of private law rules to disputes about cryptocurrencies and developments in the law of directors duties Taken as a whole the essays in this collection stand out for their breadth of scholarship analytical power depth of understanding and penetrating insights even into the knottiest problems of maritime and commercial law They are essential reading for every maritime and commercial lawyer and a fitting tribute to a scholar who has led the way in both fields for many decades

Thinking Tools for Young Readers and Writers Carol Booth Olson, Angie Balias, Emily McCourtney, Mary Widtmann, 2018 In her new book bestselling author and professional developer Carol Booth Olson and colleagues show teachers how to help young readers and writers construct meaning from and with texts This practical resource offers a rich array of research based teaching strategies activities and extended lessons focused on the thinking tools employed by experienced readers and writers It shows teachers how to draw on the natural connections between reading and writing and how cognitive strategies can be embedded into the teaching of narrative informational and argumentative texts Including artifacts and written work produced by students across the grade levels the authors connect the cognitive and affective domains for full student engagement This book seamlessly bridges the gap from research to everyday practice You get an extremely well organized set of overarching instructional principles that are right for our era and brought to life through well explained instructional guides and classroom activities From the Foreword by Judith Langer University at Albany SUNY I have always admired Carol Booth Olson s work with secondary students and teachers She now applies those essential principles and practices to elementary and middle school students Bravo P David Pearson professor emeritus University of California Berkeley

Style, Computers, and Early Modern Drama Hugh Craig, Brett Greatley-Hirsch, 2017-08-03 Hugh Craig and Brett Greatley Hirsch extend the computational analysis introduced in Shakespeare Computers and the Mystery of Authorship edited by Hugh Craig and Arthur F Kinney Cambridge 2009 beyond problems of authorship attribution to address broader issues of literary history Using new methods to answer long standing questions and challenge traditional assumptions about the underlying patterns and contrasts in the plays of Shakespeare and his contemporaries Style Computers and Early Modern Drama sheds light on for example different linguistic usages between plays written in verse and prose company styles and different character types As a shift from a canonical survey to a corpus based literary history founded on a statistical analysis of language this book represents a fundamentally new approach to the study of English Renaissance literature and proposes a new model and rationale for future computational scholarship in early modern literary studies

Quality Questioning Jackie Acree Walsh, Beth Dankert Sattes, 2016-10-05 Realize the potential of

quality questioning for student thinking and learning Jackie Walsh and Beth Sattes present quality questioning as a process that begins with the preparation of questions to engage all students in thinking and culminates in the facilitation of dialogue that takes learning deeper This new edition of the bestseller organizes questioning practices around the 6Ps framework composed of Prepare and Present the Question Prompt Student Thinking Process Student Responses Polish Questioning Practices and Partner with Students It extends and expands on timeless principles while adding significant new research based practices and insights derived from the authors own learning with and from classroom teachers Designed for immediate classroom use this guide includes Graphics tools and strategies to develop student skills and create a classroom culture that nurtures thinking and learning QR codes that link to more than twenty new videos depicting students and teachers from elementary through high school Tools and strategies to support teacher engagement in personal reflection classroom observations and collaborative dialogue that improve personal practice This exciting new book demonstrates how to seamlessly integrate effective questioning strategies into daily practice thereby energizing teaching and learning Questions are the most important tool in a teacher s toolbox Walsh and Sattes teach us how to sharpen those tools and use the right ones to maximize learning They understand that questioning isn t interrogation but rather frames dialogic instruction You can see this come to life in the videos throughout this book Quality Questioning belongs on every thoughtful educator s bookshelf Nancy Frey Professor Department of Educational Leadership San Diego State University CA If you re ready to shift your purpose for questioning from answer getting to provoking higher order thinking this book is a must read Never again will you take questioning for granted Connie Hamilton EdS Curriculum Director Saranac Michigan Community Schools Reading this book is like chatting with an amazing professional friend and mentor It s a joy to read to ponder and to use as a constant resource Susan Hudson Educational Consultant and Former Exemplary Educator Tennessee Department of Education A must read for all teachers who continually strive to improve their practice to better impact student learning Betsy Rogers EdD 2003 National Teacher of the Year Associate Professor and Department Chair Curriculum and Instruction Samford University Birmingham AL

Reduction of Environmental Distraction to Facilitate Cognitive Performance

Annelies Vredeveldt, Timothy John Hollins, 2015-03-26 When faced with a difficult task people often look at the sky or close their eyes This behavior is functional the reduction of distractions in the environment can improve performance on cognitive tasks including memory retrieval Reduction of visual distractions can be operationalized through eye closure gaze aversion or by comparing exposure to simple and complex visual displays respectively Reduction of auditory distractions is typically examined by comparing performance under quiet and noisy conditions Theoretical reasoning regarding this phenomenon draws on various psychological principles including embodied cognition cognitive load and modality specific interference Practical applications of the research topic are diverse For example the findings could be used to improve performance in forensic settings e g eyewitness testimony educational settings e g exam performance occupational settings e g employee

productivity or medical settings e.g. medical history reporting This Research Topic welcomes articles from all areas of psychology relating to the reduction of distractions to improve task performance Articles can address but are not limited to new empirical findings comprehensive reviews theoretical frameworks opinion pieces or discussions of practical applications

Student Learning in German Higher Education Olga Zlatkin-Troitschanskaia, Hans Anand Pant, Miriam Toepper, Corinna Lautenbach, 2020-02-15 This book offers a comprehensive overview of current innovative approaches to assessing domain specific and generic student learning and learning outcomes in higher education The presented work from all projects of the KoKoHs program the most significant research initiative in German higher education since 2011 describes established tools and empirical results

Effective Altruism Hilary Greaves, Theron Pummer, 2019-09-12 This is the first collective study of the thinking behind the effective altruism movement This movement comprises a growing global community of people who organise significant parts of their lives around the two key concepts represented in its name Altruism is the idea that if we use a significant portion of the resources in our possession whether money time or talents with a view to helping others then we can improve the world considerably When we do put such resources to altruistic use it is crucial to focus on how much good this or that intervention is reasonably expected to do per unit of resource expended as a gauge of effectiveness We can try to rank various possible actions against each other to establish which will do the most good with the resources expended Thus we could aim to rank various possible kinds of action to alleviate poverty against one another or against actions aimed at very different types of outcome focused perhaps on animal welfare or future generations The scale and organisation of the effective altruism movement encourage careful dialogue on questions that have perhaps long been there throwing them into new and sharper relief and giving rise to previously unnoticed questions In this volume a team of internationally recognised philosophers economists and political theorists present refined and in depth explorations of issues that arise once one takes seriously the twin ideas of altruistic commitment and effectiveness

Literacy Assessment and Intervention for Classroom Teachers Beverly A. DeVries, 2023-04-25 The Sixth Edition of this comprehensive resource helps future and practicing teachers recognize and assess literacy problems while providing practical effective intervention strategies to help every student succeed DeVries thoroughly explores all major components of literacy offering an overview of pertinent research suggested methods and tools for diagnosis and assessment intervention strategies and activities and technology applications to increase students skills Substantively updated to reflect the needs of teachers in increasingly diverse classrooms the Sixth Edition addresses scaffolding for English language learners and the importance of using technology and online resources It presents appropriate instructional strategies and tailored teaching ideas to help both teachers and their students The valuable appendices feature assessment tools instructions and visuals for creating and implementing the book's more than 150 instructional strategies and activities plus other resources New to the Sixth Edition Up to date and in line with national state and district literacy standards this edition covers the latest shifts in teaching and the evolution of these

standards New material on equity and inclusive literacy instruction understanding the science of reading using technology effectively and reading and writing informational and narrative texts New intervention strategies and activities are featured in all chapters and highlight a stronger technology component Revamped companion website with additional tools videos resources and examples of teachers using assessment strategies

Markets Armin Beverungen, Philip Mirowski, Edward Nik-Khah, Jens Schröter, 2019-01-29 A media theory of markets Markets abound in media but a media theory of markets is still emerging Anthropology offers media archaeologies of markets and the sociology of markets and finance unravels how contemporary financial markets have witnessed a media technological arms race Building on such work this volume brings together key thinkers of economic studies with German media theory describes the central role of the media specificity of markets in new detail and inflects them in three distinct ways Nik Khah and Mirowski show how the denigration of human cognition and the concomitant faith in computation prevalent in contemporary market design practices rely on neoliberal conceptions of information in markets Schröter confronts the asymmetries and abstractions that characterize money as a medium and explores the absence of money in media Beverungen situates these inflections and gathers further elements for a politically and historically attuned media theory of markets concerned with contemporary phenomena such as high frequency trading and cryptocurrencies

Facets of India's Security P.R. Kumaraswamy, 2021-08-26 This volume brings together established and emerging scholars from academia and think tanks to reflect on important conceptual strategic and developmental issues in India's national security It provides a comprehensive understanding of national security through a more open approach covering both traditional and non traditional concerns that have a bearing on the survival and well being of humanity It discusses key themes such as perceptions about China civil military relations gender and military nuclear safety arms trade and cybersecurity human security food and water security soft power and the media's role in covering security issues As a festschrift for Commodore C Uday Bhaskar it highlights and adds to his scholarly contributions to the national security debate in the country for the past three decades A unique contribution this volume will be indispensable for students and researchers of politics and international relations national security human security geopolitics non traditional security military and strategic studies and South Asian studies
