## **Joint Admission Board Cutoff 2015:**

**Equality in Kenya's 2010 Constitution** Victoria Miyandazi,2021-02-25 This book makes a significant contribution to the ongoing global conversations on the various understandings of equality It illuminates the many ways in which diverse equality guarantees clash or are interrelated It also sets out principled approaches on how they can be coherently interpreted to address the myriad inequalities in Kenya Taking a comparative approach the book considers how other jurisdictions including the United States United Kingdom Canada South Africa India and Botswana have approached the conceptualisation interpretation and application of various equality concepts The book focuses on important issues such as transformative constitutionalism in relation to the interpretation of Kenya s 2010 Constitution expanding the list of enumerated grounds for non discrimination affirmative action accommodating religious and cultural diversity versus gender equality the interrelation between socio economic rights and status based equality Advancing Africa's Sustainable Development Alain L. Fymat,2018-11-14 While many African countries lag behind the rest of the industrialised world in scientific and medical research and development the situation is progressively improving This is why the Society for the Advancement of Science in Africa was established to contribute to economic advancement and sustainability through science research education and innovation This book provides a selection of papers from the Advancement of Science in Africa s fourth annual conference The conference was held under the overarching theme of science technology and innovation in Africa with several important sub themes including but not limited to improving health research and disease surveillance education collaborating in research responding to epidemic diseases with high mortality in Africa and promoting women s interest in science careers The collection illustrates how although the chapter contributors come from various countries and universities representing their own academic research they all share a common interest in advancing science technology and innovation in Africa **Contextualizing Indigenous Knowledge in Africa and its Diaspora** Ibigbolade Aderibigbe,Alloy Ihuah,Felisters Kripono,2015-09-04 This volume proposes a wholesale adoption of African Indigenous Knowledge Systems AIKS as a paradigm for Africa s renewal and freedom from the whims of foreign interests These systems as argued here involve balancing short term thinking and immediate gratification with longer term planning for future generations of Africans and the continent s diaspora The book will be of interest to anyone concerned with development studies in Africa and its diaspora as it offers plausible solutions to Africa s chronic developmental problems that can only be provided from within Africa rather than through the intervention of external third parties As such it provides vital contributions to the ongoing search for viable answers to the challenges that Africa faces today *Mechanics Magazine* John I Knight,1865 *The Engineer* ,1876 The Mechanics' Magazine and Journal of Engineering, Agricultural Machinery, Manufactures and Shipbuilding ,1865 **Small-State Mediation in International Conflicts** Jacob Eriksson,2015-08-19 The Israeli Palestinian conflict is one of the most prolonged contentious and divisive in the modern era But despite the volatile nature of

the conflict which frequently flares up in armed confrontations between the two there have been advancements towards a settlement through an admittedly protracted peace process In this book Jacob Eriksson argues that the impact of small states such as Sweden or Norway should not be ignored when it comes to the ongoing efforts to negotiate between Israel and Palestine Although small states lack coercive power the talks they have sponsored in this particular instance such as the Norwegian mediated Oslo Accords have transformed both the conflict and the conceptions of a solution to it Of course the diplomatic and financial power of larger states such as the USA is undoubtedly central to a negotiated solution But by looking at conflict resolution from the perspective of the small state Eriksson offers a unique analysis of power and diplomacy in the context of negotiations and efforts towards peace settlements
