

# Finding Latitude & Longitude or UTM Coordinates of a Point

## Activity 1.2

Name: \_\_\_\_\_ Course/Section: \_\_\_\_\_ Date: \_\_\_\_\_

- A** Air samples have been collected at the Mauna Loa Observatory (MLO) on the main island of Hawaii since the late 1950s and analyzed to determine the concentration of carbon dioxide ( $\text{CO}_2$ ) in the atmosphere. Located at 3397 m above sea level on the north slope of the Mauna Loa Volcano, this remote sampling site is high enough so that contamination is minimized. The location of MLO is shown by the yellow-filled circle in Fig. A1.2.1, which is a map that uses the geographic coordinate system of decimal latitude and longitude. One of the orange lines through the site extends north-south along a meridian—an arc of equal longitude—and the other extends east-west along a parallel—a circle of equal latitude (Fig. 1.4).

Figure A1.2.1

- Latitude  $19.50^\circ\text{N}$  is the minimum latitude shown on the map. Carefully measure the distance along the orange line from the  $19.50^\circ\text{N}$  parallel to the MLO site. We will call that map-distance  $a1$ .  $a1 = \underline{2.6}$  cm
  - Measure the total map distance along that same orange line from the  $19.50^\circ\text{N}$  parallel through the MLO site to the  $19.60^\circ$  parallel and call that map distance  $b1$ .  $b1 = \underline{7.7}$  cm
  - We know the difference in latitude from the bottom of the map at  $19.50^\circ\text{N}$  to the top of the map at  $19.60^\circ\text{N}$  and call that distance  $d1$ .  $d1 = \underline{0.1^\circ}$
  - We would like to know the difference in latitude between  $19.50^\circ\text{N}$  and the MLO site and will call this unknown quantity  $c1$ . The ratio of  $a1$  to  $b1$  is the same as the ratio of  $c1$  to  $d1$ . Use what you learned about proportions by reading the text earlier in this chapter to find  $c1$ .  $c1 = \underline{0.1^\circ}$
  - Determine the latitude of the MLO site ( $19.50^\circ\text{N} + c1$ )  $\underline{19.60^\circ\text{N}}$
  - Just in case you come across this situation again in the (near) future, write a general equation to solve this type of equation directly using the variable names  $a$ ,  $b$ ,  $c$ , and  $d$ :  $c = \underline{\frac{a \cdot d}{b}}$
- Follow the same general procedure to find the longitude of the MLO site.
- Map the distance from longitude  $155.50^\circ\text{W}$  to MLO ( $a2$ ), recognizing that longitude  $155.50^\circ\text{W}$  is the minimum longitude shown on the map:  $a2 = \underline{3.3}$  cm.

**Laboratory Manual for Principles of General Chemistry** J. A. Beran, Mark Lassiter, 2022-08-16 Laboratory Manual for Principles of General Chemistry 11th Edition covers two semesters of a general chemistry laboratory program The material focuses on the lab experiences that reinforce the concepts that not all experimental conclusions are the same and depend on identifying an appropriate experimental procedure selecting the proper apparatus employing the proper techniques systematically analyzing and interpreting the data and minimizing inherent variables As a result of good data a scientific and analytical conclusion is made which may or may not be right but is certainly consistent with the data Experiments write textbooks textbooks don't write experiments A student's scientific literacy grows when experiences and observations associated with the scientific method are encountered Further experimentation provides additional cause effect observations leading to an even better understanding of the experiment The 11th edition's experiments are informative and challenging while offering a solid foundation for technique safety and experimental procedure The reporting and analysis of the data and the pre and post lab questions focus on the intuitiveness of the experiment The experiments may accompany any general chemistry textbook and are compiled at the beginning of each curricular unit An Additional Notes column is included in each experiment's Report Sheet to provide a space for recording observations and data during the experiment Continued emphasis on handling data is supported by the Data Analysis section
