Private Equity Unchained T. Meyer, 2014-09-10 There are significant returns to be made from private equity infrastructure real estate and other illiquid investments but a competitive strategy is essential for investment success and for meeting objectives This book takes readers through all the considerations of planning and implementing an investment strategy in illiquid investments

Where Have All the Democrats Gone? Ruy Teixeira, John B. Judis, 2023-11-07 A Wall Street Journal Best Political Book of 2023 A much needed wake up call for the Democrats which reveals how the party has lost sight of its core principles and endangered its political future from the authors of one of the most influential political books of the 21st century The New York Times For decades American politics has been plagued by a breakdown between the Democratic and Republican parties in which victory has inevitably led to defeat and vice versa Both parties have lost sight of the people at the center of the American electorate leading to polarization and paralysis In Where Have All the Democrats Gone John B Judis and Ruy Teixeira reveal the tectonic changes shaping the country's current political landscape that both pundits and political scientists have missed The Democratic Party once the preserve of small towns as well as big cities and of the industrial working class and the newly immigrated has abandoned and even actively alienated many of these voters In this clarion call and essential argument for common sense and common ground Judis and Teixeira reveal the transformation of American politics and provide a razor sharp critique of where the Democrats have gone awry and how they can avoid political disaster in the days ahead *Federal Register*, 2013

World Heritage and Human Rights Peter Bille Larsen, 2017-11-20 The World Heritage community is currently adopting policies to mainstream human rights as part of a wider sustainability agenda This interdisciplinary book combines a state of the art review of World Heritage policy and practice at the global level with ethnographic case studies from the Asia Pacific region by leading scholars in the field By joining legal reviews anthropology and practitioner experience through in depth case studies it shows the diversity of human rights issues in both natural and cultural heritage sites From site designation to their conservation and management the book explores the various rights issues and analyses the diverse social cultural and legal challenges and responses at both regional and global level Detailed case studies are included from Australia Cambodia China Malaysia Myanmar Nepal the Philippines and Vietnam The book will appeal to both natural and cultural heritage professionals and human rights and heritage scholars and will serve as a useful compendium for courses use allowing students to compare contrast and contextualize different contexts *Educating Tomorrow's Engineers* Great Britain: Parliament: House of Commons: Science and Technology Committee, 2013-02-08 In the UK we teach young people to become computer users and consumers rather than programmers and software engineers This is creating a chronic skills gap in ICT We need around 82 000 engineers and technicians just to deal with retirements up to 2016 and 830 000 SET professionals by 2020 On the plus side the Government's proposal to include computer science as a fourth science option to count towards the EBac is welcomed The Committee also

welcomes the EBac s focus on attainment of mathematics and science GCSEs but is concerned that subjects such as Design and Technology D T might be marginalised A Technical Baccalaureate TechBac is being designed but if it is to be a success schools should be incentivised to focus on the TechBac by making it equivalent to the EBac Reforms to vocational education following the Wolf Review meant that Level 2 of the Engineering Diploma a qualification highly regarded would count as equivalent to one GCSE despite requiring curriculum time and effort equivalent to several GCSEs The Engineering Diploma however is currently being redesigned as four separate qualifications The Committee also expressed concerns over the Department for Education s DfE lack of clarity on its research budget and use of evidence in decision making The DfE needs to place greater focus on gathering evidence before changes to qualifications are made and must leave sufficient time for evidence to be gathered on the effectiveness of policies before introducing further change The possibility of gathering evidence from randomised controlled trials RCTs should be seriously considered **Financial Inclusion Regulatory**
