

Title

(Restate your research question to have a clear, short, summary statement of what the paper is about.
No other details including the name, student number, or school name should be added)

Table of Contents

This should be an outline of your essay listing the major sections and subsections. They can include introduction, methodology, body, conclusion, and bibliography.

Introduction (200-300 words)

Introduce the reader to the company/organization that you're researching and what they do. Make the first few sentences as catchy as you can to hook the reader. Then, give the context for your RQ and briefly explain how you will be going about the exploration. End this part with the research question and explain why your paper is important.

Methodology (300-400 words)

You can have a small but detailed section detailing how you went about your research, what data you collected and how you did it. Describe each of your sources, which should be secondary. You should also mention and describe any tools and techniques used to analyze the data collected, and comment on the accuracy/reliability of both the tools and methods used.

Body (About 2800 words)

The body contains the research, analysis, discussion, and evaluation. It should be in paragraph format with each passing across a distinct point with its explanation and evidence. Each point should be clearly related and linked to the research question. Even though the body is in paragraph, you can have two distinct parts:

- **Tools** – Explain 4-5 tools from what you have learned in the coursework. Use financial tools as much as possible, with qualitative tools such as PEST before quantitative ones such as ratio analysis.
