Journal Politique Tome:

The English Novel in France, 1830-1870 Marian Gladys Devonshire, 1929

Studies in the History of French

Political Economy Gilbert Faccarello, 2002-09-11 Studies in the History of French Political Economy considers the evolution of economic thought in France from the sixteenth to the twentieth century Gilbert Faccarello brings to the forefront those economists themes and controversies which are important in the context of recent research and about which new ideas can be developed

Power in Economic Thought Manuela Mosca, 2018-10-17 This book offers a pluralistic vision of the way economists have dealt with the question of power in society over the last two centuries Economists ideas about power are examined from political theoretical and policy making points of view with additional discussion of the active participation of economists in the management of power The book is organized into four main conceptions of power relations i Power as embedded in political institutions ii Power as emerging from the asymmetric relations caused by the unequal distribution of income and wealth iii Power as associated to the monopolistic or oligopolistic position held by some firms in the market and iv Power as the management of economic policies by the state Mosca brings together contributions from a range of scholars to analyse how economists have considered the role of power putting the discussion into a much needed historical context

Studies in the History of Public Economics Gilbert Faccarello, Richard Sturn, 2014-06-17 Many important economic and political debates today refer to the nature and the role of the State should governments intervene in the economy and interfere with the operation of markets In which occasions and how In order to better understand these questions and the controversies they have raised this book re considers the debates crucial for the issues at stake the most important schools of thought and the central concepts in an historical perspective After a tribute to Sir Alan Peacock and the first publication of two hitherto unpublished papers written in the 1950s the chapters focus on important developments that occurred in Europe during the 19th and early 20th centuries The final part includes contributions on public economics after World War II focusing on concepts such as merit goods externalities and the Coase theorem This book was originally published as a special issue of The European Journal of the History of Economic Thought

The Polish-Lithuanian Commonwealth Andrzej Chwalba, Krzysztof Zamorski, 2020-10-15 This volume provides a fresh perspective of the history and legacy of the Polish Lithuanian Commonwealth as well as the often disputed memory of it in contemporary Europe The unions between the Crown of the Kingdom of Poland and the Grand Duchy of Lithuania have fascinated many readers particularly because many solutions that have been implemented in the European Union have been adopted from its Central and Eastern European predecessor The collection of essays presented in this volume are divided into three parts the Beginnings of Poland Lithuania the Polish Lithuanian Commonwealth and Legacy and Memory of the Polish Lithuanian Commonwealth and represent a selection of the papers delivered at the Third Congress of International Researchers of Polish History which was held in Cracow on 11-14 October 2017 Through their application of different historiographical perspectives and schools of history

they offer the reader a fresh take on the Commonwealth's history and legacy as well as the memory of it in the countries that are its inheritors namely Poland Lithuania Latvia Belarus and Ukraine An exploration of one of the biggest countries in Early Modern Europe this will be of interest to historians political scientists cultural anthropologists and other scholars of the history of Central and Eastern Europe in the Early Modern period

I Have Avenged America Julia Gaffield, 2025-06-17

A moving and humane portrait of the abolitionist revolutionary Jean Jacques Dessalines who led Haiti's fight for independence from French colonial rule My name has become a horror to all those who want slavery declared Jean Jacques Dessalines as he announced the independence of Haiti the most radical nation state during the Age of Revolution and the first country ever to permanently outlaw slavery Enslaved for the first thirty years of his life Dessalines c 1758 1806 joined the revolution that abolished slavery within the French colony Then he became a general in the colonial army of the new French Republic When it was discovered that France once again supported slavery Dessalines declared war on his former allies Fighting under the slogan Liberty or Death his army forced the French to evacuate in late 1803 At the start of the new year Dessalines declared independence from France and became the leader of a free Haiti A hero to Haitians for centuries Dessalines is portrayed abroad as barbarous and violent Yet this caricature derives not from facts as Julia Gaffield demonstrates with extensive new research but from the fears of contemporary enslavers Showcasing

the man behind the myths Gaffield reveals Dessalines's deep suffering, warm friendships and unwavering commitment to destroying slavery, racism and colonialism and his bold insistence on his people's right to liberty and equality Efficiency versus Sustainability in Dynamic Decision Making Bodo Glaser, 2012-12-06 To all who taught me and to all who will Over the past fifteen years the notions of efficiency and sustainability have more than any others influenced the academic and public discussion concerning the intertemporal allocation of resources especially as regards the economics of growth and environment This treatise formally develops and counterposes these notions by means of the construct of a trajectorial objective which is here developed along with its implications as a natural advance upon the classical scalar objective In the course of this study it becomes clear that efficiency and sustainability are by no means identical given that efficiency on the one hand is the concept for avoiding wasteful behavior and sustainability on the other is the concept for ensuring that certain critical aspiration levels which usually reflect the wish for survival are maintained Nonetheless contrary to what may be assumed these two concepts do not generally yield mutually exclusive solutions in fact they can be combined to complement each other in the quest for unimprovable long term solutions which sustain given and necessary aspiration levels This treatise develops and analyzes dynamic decision models DDM with one trajectorial objective according to the methodology of multi criteria decision making MCDM Moreover introducing the method of distance maximization crucially augments MCDM and proves to be invaluable for DDMs in the case of a nonexistent utopia trajectory as well as in the case of sustainability as objective **Miscellaneous and Posthumous Works of Henry Thomas Buckle** Helen Taylor, 2023-05-11 Reprint of the original first published in 1872 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost **Miscellaneous and Posthumous Works of Henry Thomas Buckle** Buckle, 1872
