specifically **The Ethics of the Story** David Craig, 2006-10-10 The best journalists are masters at their craft With a comma and a colon a vivid verb and a colorful adjective they not only convey important information but also create a sense of place and evoke powerful emotions A compelling story can shape _for good or ill_ the way a reader understands people events and issues The Ethics of the Story examines the ethical implications of narrative techniques commonly used in journalism not just literary journalism but also news and feature writing The book draws on interviews with 60 talented journalists including Pulitzer Prize winners to offer practical advice about ethical choices in writing and editing Much has been written about journalism ethics but the discussion has often focused on spectacularly bad decisions _such as Jayson Blair's and Jack Kelley's use of fraudulent narrative_ rather than the ethical dimension of day to day choices about the building blocks of journalistic storytelling The Ethics of the Story fills a gap in current work on ethics writing and editing It will enlighten any serious wordsmith with a story to tell *The Law of Journalism and Mass Communication* Susan Dente Ross, Amy Reynolds, Robert Trager, 2019-11-12 This is the best all around media law text for undergraduate and graduate students alike The clear nonthreatening writing style of the authors by itself sets this book apart And yet it does so by not leaving out any important areas of inquiry That's why my colleagues and I continue to adopt this for all of our media law classes Jonathan Kotler University of Southern California In *The Law of Journalism and Mass Communication* authors Susan Dente Ross Amy Reynolds and Robert Trager present a lively up to date and comprehensive introduction to media law that brings the law to life for future professional communicators The book is grounded in the traditions and rules of law but also contains fresh facts and relevant examples that keep readers engaged Tightly focused breakout boxes highlight contemporary examples of the law in action or emphasize central points of law as well as intersections with international law and policy The thoroughly updated Seventh Edition contains a wealth of new content that is as timely as possible from the U S Supreme Court federal and state courts Congress executive agencies federal and state policymakers and advisory groups and media organizations and allies A refreshed look feel and flow of chapters provide readers an understanding of fast expanding areas of the law and legal complexities Teaching Media Ethics Sherry Baker, 2020-11-25 Both new instructors teaching media ethics for the first time and mature faculty who recognize that media ethics instruction deserves more than being worked into the professional classes find most of their instructional techniques come from observing their own instructors or from hunches The literature of media ethics appears to be long on principle and reasoning but short on how to transmit that body of wisdom to students already dazed by an assault on their right wrong world Accordingly this special issue is aimed at providing some correction to the problem by presenting a few ideas to help instructors whether they labor in the classroom or in the newsroom Journalism's Lost Generation Scott Reinardy, 2016-06-10 Journalism's Lost Generation discusses how the changes in the industry not only indicate a newspaper crisis but also a crisis of local communities a loss of professional skills and a void in institutional and community knowledge emanating from newsrooms Reinardy's thorough and opinionated

take on the transition seen in newspaper newsrooms is coupled with an examination of the journalism industry today This text also provides a broad view of the newspaper journalism being produced today and those who are attempting to produce it

Framing Austerity Aileen Marron, 2021-05-25 This monograph examines the ways in which discourses on the public sector were articulated in the print media during the 2011 financial crisis in the Irish UK and European news media It finds that coverage of the public sector was ideological portraying public sector workers as overpaid inefficient and sheltered from the worst of the crisis These explanations perpetuated the view that there was a need for austerity through cutbacks to public services and public sector pay The central thesis is that these representations must be understood as being part of the complex organisational culture of the newsroom Additional themes explored in the book include but are not limited to Media ownership concentration and journalistic self censorship The marketisation of news and its impact on journalistic practice The casualisation of the newsroom The fourth estate function of the media The discourse of austerity Neoliberalism as a dominant ideology Reflexivity in the newsroom The crisis of credibility in journalism Media portrayals of The Looney Left versus the Reasonable Right
