## Harmonic Dictation: Four-Part Settings of the Tonic Triad

The tonic triad is presented with all the possibilities of soprano-line motion. Since all the chords are in root position, you can easily fill in the bass line. Listen then for the direction of the soprano line. What is the melodic interval from one note to the next? Since the soprano will itself outline the tonic triad it should be easy to work out. Finally, fill in the inner voices, paying particular attention to the rules of part-writing.

*On Methods of Music Theory and (ethno-) Musicology* Nico Schöler, 2005 Although all research makes use of specific research methods much music scholarship is being published without any reference to or reflection on the premises of the methods employed In other words published articles and books are often lacking a discussion of the scope and limitations of the research methods Furthermore music theory musicology ethnomusicology music psychology etc are not independent disciplines nor is research in those areas an activity to be defined once and for all These areas have strong methodological relationships to each other as well as to areas outside the field of music This book discusses some of the methodological premises on which music research in the areas of music theory ethno musicology and music psychology is based and focuses on selected interdisciplinary approaches It also discusses teaching approaches to music theory      **Forthcoming Books**
