Resetting the International Monetary (Non)System José Antonio Ocampo, 2017 This volume provides an analysis of the global monetary system and proposes a comprehensive yet evolutionary reform of the system aimed at creating better monetary cooperation for the twenty first century

Resetting the Table Robert Paarlberg, 2022-03-08 A bold science based corrective to the groundswell of misinformation about food and how it s produced examining in detail local and organic food food companies nutrition labeling ethical treatment of animals environmental impact and every other aspect from farm to table Consumers want to know more about their food including the farm from which it came the chemicals used to grow it its nutritional value how the animals were treated and the costs to the environment They are being told that buying organic foods unprocessed and sourced from small local farms is the most healthful and sustainable option But what if we re wrong In *Resetting the Table* Robert Paarlberg reviews the evidence and finds abundant reason to disagree He delineates the ways in which global food markets have in fact improved our diet and how industrial farming has recently turned green thanks to GPS guided precision methods that cut energy use and chemical pollution He makes clear that America s serious obesity crisis does not come from farms or from food deserts but instead from food swamps created by food companies retailers and restaurant chains And he explains how though animal welfare is lagging behind progress can be made through continued advocacy more progressive regulations and perhaps plant based imitation meat He finds solutions that can make sense for farmers and consumers alike and provides a road map through the rapidly changing worlds of food and farming laying out a practical path to bring the two together
