parts exploring governance development community and mobile second homes the book provides a contemporary account of the major issues in an area of growing international interest This timely handbook covers a wide range of dimensions from planning to the role of second homes in development and the management of their impact The international and cross disciplinary nature of the contributions will be of interest to numerous academic fields in the social sciences as well as urban and regional planners

**Protected Areas, Sustainable Tourism and Neo-liberal Governance Policies** Hubert Job, Susanne Becken, Bernard Lane, 2020-04-28 From its late nineteenth century origins the concept of protected areas has increased in scope and complexity It now has to come to terms with the twenty first century world of neo liberal politics performance metrics and the growing and complex demands of tourism This international collection of papers explores how this might be done detailing the issues involved and the value and values that protected areas have for economies peoples and environments Special attention is given to World Heritage Sites tourism planning and their communities to the growth of private protected areas and to the health values of protected areas Other subjects include private sector business involvement in protected areas concessions policy experiments and how the work of the world s largest protected area agency the US National Park Service is adapting to changing political and market demands and to the challenges of sustainable development It concludes with a searching interview with a member of UNESCO s World Heritage Committee The chapters were originally published in a special issue in the Journal of Sustainable Tourism

**Human Dignity of the Vulnerable in the Age of Rights** Aniceto Masferrer, Emilio García-Sánchez, 2016-08-26 This volume is devoted to exploring a subject which on the surface might appear to be just a trending topic In fact it is much more than a trend It relates to an ancient permanent issue which directly connects with people s life and basic needs the recognition and protection of individuals dignity in particular the inherent worthiness of the most vulnerable human beings The content of this book is described well enough by its title Human Dignity of the Vulnerable in the Age of Rights Certainly we do not claim that only the human dignity of vulnerable people should be recognized and protected We rather argue that since vulnerability is part of the human condition human vulnerability is not at odds with human dignity To put it simply human dignity is compatible with vulnerability A concept of human dignity which discards or denies the dignity of the vulnerable and weak is at odds with the real human condition Even those individuals who might seem more skilled and talented are fragile vulnerable and limited We need to realize that human condition is not limitless It is crucial to re discover a sense of moderation regarding ourselves a sense of reality concerning our own nature Some lines of thought take the opposite view It is sometimes argued that humankind is or is called to be powerful and that the time will come when there will be no vulnerability no fragility no limits at all Human beings will become like God or what believers might think God to be This perspective rejects human vulnerability as an intrinsic evil Those who are frail or weak who are not autonomous or not able to care for themselves do not possess dignity In this volume it is claimed that vulnerability is an inherent part of human condition and because human

dignity belongs to all individuals laws are called to recognize and protect the rights of all of them particularly of those who might appear to be more vulnerable and fragile

**We the Possibility** Mitchell Weiss, 2021-01-19 Can we solve big public problems anymore Yes we can This provocative and inspiring book points the way The huge challenges we face are daunting indeed climate change crumbling infrastructure declining public education and social services At the same time we ve come to accept the sad notion that government can t do new things or solve tough problems it s too big too slow and mired

in bureaucracy Not so says former public official now Harvard Business School professor Mitchell Weiss The truth is entrepreneurial spirit and savvy in government are growing transforming the public sector's response to big problems at all levels The key Weiss argues is a shift from a mindset of Probability Government overly focused on safe solutions and mimicking so called best practices to Possibility Government This means public leadership and management that's willing to boldly imagine new possibilities and to experiment Weiss shares the three basic tenets of this new way of governing Government that can imagine Seeing problems as opportunities and involving citizens in designing solutions Government that can try new things Testing and experimentation as a regular part of solving public problems Government that can scale Harnessing platform techniques for innovation and growth The lessons unfold in the timely episodes Weiss has seen and studied the US Special Operations Command prototyping of a hoverboard for chasing pirates a heroin hackathon in opioid ravaged Cincinnati a series of experiments in Singapore to rein in Covid 19 among many others At a crucial moment in the evolution of government's role in our society We the Possibility provides inspiration and a positive model along with crucial guardrails to help shape progress for generations to come

**Battlefield Events** Keir Reeves, Geoffrey R. Bird, Laura James, Birger Stichelbaut, Jean Bourgeois, 2015-10-16 Battlefield Events Landscape Commemoration and Heritage is an investigative and analytical study into the way in which significant landscapes of war have been constructed and imagined through events over time to articulate specific narratives and denote consequence and identity The book charts the ways in which a number of landscapes of war have been created and managed

from an events perspective and how the processes of remembering along with silencing and forgetting at these places has influenced the management of these warsapes in the present day With chapters from authors based in seven different countries on three continents and comparative case studies this book has a truly international perspective This timely longitudinal analysis of war commemoration events the associated landscapes travel to these destinations and management strategies will be valuable reading for all those interested in war landscapes and events The Health of Newcomers

Patricia Illingworth, Wendy E. Parmet, 2017-01-24 Immigration and health care are hotly debated and contentious issues Policies that relate to both issues to the health of newcomers often reflect misimpressions about immigrants and their impact on health care systems Despite the fact that immigrants are typically younger and healthier than natives and that many immigrants play a vital role as care givers in their new lands native citizens are often reluctant to extend basic health care to immigrants choosing instead to let them suffer to let them die prematurely or to expedite their return to their home lands Likewise many nations turn against immigrants when epidemics such as Ebola strike under the false belief that native populations can be kept well only if immigrants are kept out In *The Health of Newcomers* Patricia Illingworth and Wendy E Parmet demonstrate how shortsighted and dangerous it is to craft health policy on the basis of ethnocentrism and xenophobia Because health is a global public good and people benefit from the health of neighbor and stranger alike it is in everyone s interest to ensure the health of all Drawing on rigorous legal and ethical arguments and empirical studies as well as deeply personal stories of immigrant struggles Illingworth and Parmet make the compelling case that global phenomena such as poverty the medical brain drain organ tourism and climate change ought to inform the health policy we craft for newcomers and natives alike *Society in Focus* William E. Thompson, Joseph V. Hickey, Mica L. Thompson, 2018-11-13 *Society in Focus* An Introduction to Sociology Ninth Edition emphasizes how society and social forces affect everything from globalization and international policies to day to day activities in our personal lives In this edition the authors go beyond the mere questioning of issues to take a closer look at the social world in which we live They provide an integrated approach that uses sociological thinking to help students analyze and understand key concepts To focus increased attention on sociological thinking and research methods they have chosen four key themes media and technology globalization cultural diversity and trends for the future Because sociology is about all of us and our daily lives it is an eminently practical and useful discipline for understanding our social world This Ninth Edition Includes specific student outcomes for each chapter as well as assessment items linked to those outcomes new chapter opening vignettes that give real life examples illustrating important terms concepts and theories included in that chapter updated data statistics maps charts boxes and tables citing the latest research available examples of the powerful impact of media and technology on society especially the role social media play in helping to shape and define our daily social lives new photos and cartoons accompanied by critical thinking questions that reinforce and illustrate important sociological terms concepts and theories **The Tourism Area Life Cycle**

Richard Butler, 2024-08-13 The Tourism Area Life Cycle TALC model is one of the most cited articles in the tourism literature and since its publication has continued to be frequently quoted and utilised by academics and those in the tourism industry Over the past 40 years it has been subject to widespread application and discussion as well as elaboration modification and criticism This book provides a final overview of the use and contribution of the model its strengths and weaknesses and particularly its relevance in the 21st century in the context of problems such as overtourism and disasters including the Covid 19 pandemic The authors represent a mixture of senior academics all of whom have used the TALC in their research and younger scholars who have also used and modified the model The final section considers revisions and concludes with a new version of the model
