India's Education Examination System (From Independence to the Present) KHRITISH SWARGIARY,2024-07-01 India's journey in education, particularly its examination system, has been a compelling narrative of transformation, challenges, and continuous evolution. Since gaining independence in 1947, India has navigated a complex path to develop an education system that meets the needs of a diverse and rapidly growing population. The examination system as a critical component of this journey reflects the broader socio-economic, cultural, and political changes that the country has undergone over the past seven decades. This book, *India's Education Examination System: From Independence to the Present*, aims to provide a comprehensive examination of the evolution, reforms, and current practices within India's examination system. By delving into the historical context, key reforms, and future directions, this book offers an in-depth understanding of how India has shaped its education policies to address the aspirations and challenges of its people. The examination system, often criticized for its rigidity and high-stakes nature, has seen numerous reforms aimed at making it more inclusive, equitable, and reflective of students' diverse talents and capabilities. From the early post-independence commissions such as the University Education Commission and the Secondary Education Commission to contemporary policies like the National Education Policy (NEP) 2020, each chapter of this book explores the milestones and turning points that have defined India's examination landscape.
