Horizons Renee Hudson, 2024-05-07 A necessary reconceptualization of Latinx identity literature and politics In *Latinx Revolutionary Horizons* Renee Hudson theorizes a liberatory latinidad that is not yet here and conceptualizes a hemispheric project in which contemporary Latinx authors return to earlier moments of revolution Rather than viewing Latinx as solely a category of identification she argues for an expansive historicized sense of the term that illuminates its political potential Claiming the x in Latinx as marking the suspension and tension between how Latin American descended people identify and the future politics the x points us toward Hudson contends that latinidad can signal a politics grounded in shared struggles and histories rather than merely a mode of identification In this way *Latinx Revolutionary Horizons* reads against current calls for cancelling latinidad based on its presumed anti Black and anti Indigenous framework Instead she examines the not yet here of latinidad to investigate the connection between the revolutionary history of the Americas and the creation of new genres in the hemisphere from conversion narratives and dictator novels to neoslave narratives and testimonios By comparing colonialisms she charts a revolutionary genealogy across a range of movements such as the Mexican Revolution the Filipino People Power Revolution resistance to Trujillo in the Dominican Republic and the Cuban Revolution In pairing nineteenth century authors alongside contemporary Latinx ones Hudson examines a longer genealogy of Latinx resistance while expanding its literary canon from the works of Jos Rizal and Martin Delany to those of Julia Alvarez Jessica Hagedorn and Leslie Marmon Silko In imagining a truly transnational latinidad *Latinx Revolutionary Horizons* thus rewrites our understanding of the nationalist formations that continue to characterize Latinx Studies [French Books III & IV \(FB\) \(2 vols.\)](#) Andrew Pettegree, Malcolm Walsby, 2011-10-14 *French Books III IV* complete a comprehensive bibliographical survey of all books published in France in the first age of print It lists over 40 000 editions printed in France in languages other than French during the fifteenth and sixteenth centuries together with bibliographical references an introduction and indexes It draws on the analysis of over 3 000 collections situated in libraries throughout the world *French Books* will be an invaluable research tool for all students and scholars interested in the history culture and literature of France as well as historians of the early modern book world For vols I II please go to *French Vernacular Books* **Catalogue of the Reference Library of the Royal Albert Memorial Museum, Exeter** University of Exeter. einer neueren Initiative seitens einer internationalen Gruppe von mit Kant befassten Philosophen und Kant Spezialisten um die Erforschung von Themen zu befördern die noch nicht umfassend bearbeitet sind Das trifft mit Sicherheit auf die Metapher Thematik in Kants Philosophie zu der der vorliegende Band gewidmet ist In recent decades metaphor has become a respectable and central theme in philosophy In his critical philosophy Kant treats this theme in terms of the notions of analogy and symbolization In addition to contributing significantly to the development of our understanding of the role played by images metaphors and symbols in both theoretical and practical issues Kant is also widely recognized as a great creator of metaphors in his own right Symbols analogies and aesthetic ideas are undeniably metaphorical processes which fulfill a function in Kant's philosophical language that is as fundamental as it is systematic This collected volume is the result of a recent initiative on the part of an international group of Kantian philosophers and scholars to promote research on topics that have yet to be thoroughly explored in academic research This is certainly true of the topic of metaphor in Kant's philosophy to which the present volume is devoted
