Altenhofen,2013 When I was assigned an infantry MOS in spite of having a profile I first thought about what the Psychiatrist had told me He said I lost my temper very fast and it was uncontrollable My first reaction was to get very angry my mind seemed to blow up I wanted to scream at him that he was wrong Than I realized that was just what he had just told me So I always worried that I would get into a situation where I would need all my facilities about me and I would loose it and cause one or more people to get injured because I was not thinking properly I found it easy to operate in the infantry The operating manuals were written so they were easy to understand I passed all the schools I had to attend and I was considered very efficient However I was not the loud screaming bully that was typical of the Infantry Sergeant I was often critized because I did not scream at the troops I found that if you talked to them using good english I got more done So I did not use curse words or degrade people in any manner I learned when I went to my first Infantry unit that if I told them I had a profile and that I could type I would be put in a dead end job that earned no rewards so I would just be marking time I could not operate that way As soon as I could I got rid of the profile I got a few breaks and considered myself very lucky to accomplish as much as I did in the Army I wrote mostly about myself but I did include bits about people who I considered outstanding good or bad I hope you enjoy reading this as much as I enjoyed living it SFC Ret William G Altenhofen      Early North America Tim McNeese,2002-09-01 This book provides a detailed and richly illustrated overview of the lives of the first Americans from their earliest migrations over the Bering land bridge to their initial encounters with European explorers It traces the settlement of these early nomadic peoples across North Americathe evolution of tools the establishment of agriculture and the rise of elaborate regional cultures Styles of shelter modes of travel and transport and the prevalence of art and ornamentation suggest remarkable creativity and human ingenuity Tribal beliefs habits practices and unique structures of various tribal societies are discussed The last third of the book documents European discovery of the New World the often brutal rivalries among European colonizers and the savage treatment of native peoples Challenging review questions encourage meaningful reflection and historical analysis Maps tests answer key extensive bibliography and bonus timeline are
