

GEOMETRY PERFORMANCE TASK

Area, Perimeter, and Angle Measures

Name _____

In Coonstown, USA, all the streets run perfectly north-south or east-west, except Main Street, which runs across Main Street to create a 20° angle at the NW corner (labeled on diagram).

- Water Street is exactly 800 yards north of Coonhound Ave.
 - It is exactly 1000 yards from Main Street due east to the bridge.
 - If you are at the corner of Main Street and Water Street, it is only 750 yards due east to the river.
- ❶ Label the drawing with the above measurements, including what you know about the angles.

You have been commissioned to build a park on the piece of land that is bordered by Water Street, Main Street, and Coonhound Ave. As part of your plan, you are building a rectangular dock that extends out into the water (this is already shown on the diagram).

- ❷ Shade in (lightly please) the region that is the park (including the dock).
- ❸ The Mayor would like to know how big the park will be (including the dock) so that he can write a press release. What will you tell him? Show and explain your work!
