This material has been designed for teachers and students of middle primary to middle secondary school. It provides information and activities on a range of issues associated with stormwater. It can be used in conjunction with the *Waterwatch Education Kit*, or can be used as an independent study.

The activities in this *Stormwater Education Manual* address curriculum requirements (CSF II) for SOSE and Science Levels 3, 4 and 5.

The manual is organised into three sections:

Introduction

Outlines the educational background for the manual, including CSF II links.

Statewide Section

These activities are of relevance to all regions and can be adapted to suit your local area, waterway or bay.

The activities in this section address the focus questions and topics:

- Understanding the stormwater drainage system.
- How can stormwater affect our waterways/bays?
- How can people affect stormwater?
- Why are our waterways/bays important?
- Doing something about stormwater pollution.

Regional Section

The Regional Section provides site specific information and activities, including where to see local examples of wetlands, waterways, estuary environments and stormwater traps. These activities can be adapted to suit other regions.
