Hess,Max Eden,2021-03-09 In this foundational book Frederick M Hess and Max Eden bring together a cross section of respected academics and journalists to examine key aspects of the Every Student Succeeds Act ESSA This volume provides a thematic and in depth analysis of the central provisions of this landmark legislation presenting a range of perspectives The contributors leading researchers policy analysts and journalists explore the conflicts and compromises that shaped the emerging law outline its core provisions and trace its implications for urban districts states and the federal government Complementing these descriptions are chapters presenting opposing viewpoints on the law s merits and its ramifications for future reform efforts Enacted in December 2015 ESSA represents a major shift of the federal role in education and its provisions touch on almost every aspect of education policy Yet it arrived in something of a whirlwind and scholars advocates and policy makers are struggling to make sense of this new act By bringing together leading thinkers to make sense of this important law The Every Student Succeeds Act provides a solid foundation for scholars advocates and policy makers as they begin to navigate a new era in education policy Childcare, Early Education and Social Inequality Hans-Peter Blossfeld,Nevena Kulic,Jan Skopek,Moris Triventi,2017-04-28 Recognising that social change over recent decades has strengthened the need for early childhood education and care this book seeks to answer what role this plays in creating and compensating for social inequalities in educational attainment **Mining Journal, Railway & Commercial Gazette** ,1907 The Mining Journal, Railway and Commercial Gazette ,1907 **Hard Target** Stephan Haggard,Marcus Noland,2017-05-30 Because authoritarian regimes like North Korea can impose the costs of sanctions on their citizens these regimes constitute hard targets Yet authoritarian regimes may also be immune and even hostile to economic inducements if such inducements imply reform and opening This book captures the effects of sanctions and inducements on North Korea and provides a detailed reconstruction of the role of economic incentives in the bargaining around the country s nuclear program Stephan Haggard and Marcus Noland draw on an array of evidence to show the reluctance of the North Korean leadership to weaken its grip on foreign economic activity They argue that inducements have limited effect on the regime and instead urge policymakers to think in terms of gradual strategies Hard Target connects economic statecraft to the marketization process to understand North Korea and addresses a larger debate over the merits and demerits of engagement with adversaries **Nordic Economic Policy Review 2022: COVID-19 Effects on the Economy in the Nordics** Andersen, Torben M.,Holden, Steinar,Honkapohja, Seppo,Eichhorst, Werner,Brunner, Johannes,Zoega, Gylfi,Hultkrantz, Lars,Svensson, Mikael,Hall, Caroline,Hardoy, Inés,Lundin, Martin,Huttunen, Kristiina,Pesola, Hanna,2022-06-07 Available online <https://pub.norden.org/nord2022/001> This issue of the Nordic Economic Policy Review surveys the economic repercussions of the COVID 19 pandemic and the health and economic policies introduced to minimise its impact in the Nordic countries Although

national policies were broadly similar they also differed in many respects Given that some enjoyed greater success than others comparing different policies and their effects may yield valuable lessons for the future The Nordic countries weathered the pandemic relatively well compared to most other high income countries both in terms of public health and economic repercussions Infection and excess mortality rates were comparatively low in the Nordic Region except in Sweden where they relied more on recommendations and guidelines than mandatory measures to contain the spread of the virus The fall in GDP was also comparatively small and short lived in all the countries except Iceland where tourism plays a more prominent role in the economy Nordic Economic Policy Review NEPR aims to convey policy relevant up to date research on different economic issues The review produces one issue per year each time with a new topic and researchers NEPR strives to make the latest economic research accessible to both decision makers and a broader audience as well as to contribute to Nordic knowledge exchange on economic policy issues and challenges

Getting Into Good Trouble at School Gregory C. Hutchings, Jr., Douglas S. Reed, 2022-05-10 Turn the promise of equitable education into reality This is your guidebook for building an antiracist school Written by two education leaders with very different life experiences Getting into Good Trouble At School provides the context empowerment and concrete actions needed to dismantle racist policies and practices that for decades have kept students of color from experiencing the same success as their white counterparts The journeys of Gregory Hutchings and Douglas Reed which include systemic racism and white privilege provide a unique model superintendents principals school board members and other educators can use to reimagine educational equity actively dismantle institutional racism and implement strategic methodical policies that benefit the entire school community In this book you ll find A detailed case study of antiracist educational transformation What it really means to commit to racial equity Guidance for dismantling tracking and in school segregation Positive equitable alternatives to typical disciplinary practices Six steps to building an antiracist school system Racism isn t always intentional Antiracism on the other hand must be Now antiracist education leaders can put their intentions into action and grant the promise of an equitable and culturally rich education to all students

Marijuana Federalism Jonathan H. Adler, 2020-03-17 On marijuana there is no mutual federal state policy will this cause federalism to go up in smoke More than one half the 50 states have legalized the use of marijuana at least for medical purposes and about a dozen of those states have gone further legalizing it for recreational use Either step would have been almost inconceivable just a couple decades ago But marijuana remains an illegal controlled substance under a 1970 federal law so those who sell or grow it could still face federal prosecution How can state and federal laws be in such conflict And could federal law put the new state laws in jeopardy at some point This book an edited volume with contributions by highly regarded legal scholars and policy analysts is the first detailed examination of these and other questions surrounding a highly unusual conflict between state and federal policies and laws Marijuana Federalism surveys the constitutional issues that come into play with this conflict as well as the policy questions related to law enforcement at the

federal versus state levels It also describes specific areas such as banking regulations in which federal law has particularly far reaching effects Readers will gain a greater understanding of federalism in general including how the division of authority between the federal and state governments operates in the context of policy and legal disputes between the two levels This book also will help inform debates as other states consider whether to jump on the bandwagon of marijuana legalization

The Practice of International Development Jerrold Keilson, Michael Gubser, 2017-09-22 Development analysts tend to give short shrift to the seemingly minor bureaucratic hitches faced by practitioners those who design manage implement and evaluate aid projects Often critical of foreign aid either for its apparent ineffectiveness at alleviating poverty or its purported neocolonial implications the academic literature rarely acknowledges the experiences and pressures faced by practitioners themselves as they implement aid funded development projects the meetings paperwork negotiations site visits financial transactions logistical arrangements interviews program activities and beneficiary interactions that keep projects running And yet the impact of aid projects and indeed the impact of development itself often grows out of the daily activities and personal interactions of development practitioners This unique book considers challenges from the perspective of development practitioners who confront technical managerial political theoretical and moral quandaries on a daily basis With chapters written by expert practitioners on different aspects of design and management of international development activities this book examines real issues and navigates the often contradictory demands of local development needs including international donor imperatives limited financial resources time information and assurance of results the competing pulls of administrative efficiency and the desire to alleviate suffering It also gives readers access to the crucial but little heard voices of those who spend their professional lives designing and managing foreign aid projects offering insight into what did or did not work on projects they have managed implemented or evaluated These insights do not seek to identify universally right or wrong ways of doing development instead they highlight pros and cons associated with various approaches and decisions This book provides valuable insights for students and others interested in a development career encourages practitioners to engage in reflection and persuades researchers to further consider the influence of practice on project success or failure

Rury, 2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree *Ultimate Guide to SSC*
