European Dept., 2015-07-31 EXECUTIVE SUMMARY Key issues Kosovo faces the dual challenge of maintaining fiscal credibility and debt sustainability while shifting its growth model from one driven by remittances and consumption to one driven by investment and the tradable sector This requires fiscal consolidation over the next two years that deflates unproductive current spending while increasing space for critical public investment and donor financed capital projects It also requires steps to further preserve financial stability improve competitiveness remove structural impediments to bank lending and reduce corruption Stand By Arrangement SBA The authorities have requested a 22 month SDR 147 5 million 250 percent of quota SBA An initial purchase of SDR 28 1 million would become available upon approval of this request The program will seek to preserve low debt and financial stability and rebuild government bank balances while creating conditions for more dynamic and better balanced growth Specifically policies would aim at Strengthening public finances through fiscal consolidation with the deficit path within the fiscal rule s limits This will be supported by steps to improve budget composition and deflate unproductive current spending Capital expenditure will be protected and even enhanced through the modification of the investment clause under the fiscal rule A new debt limit will ensure that debt remains sustainable Advancing financial sector reforms related to emergency liquidity assistance and risk based supervision to bolster financial sector stability Raising Kosovo s long term growth prospects Reforms will include the introduction of a public wage bill to boost competitiveness a new public procurement process to improve the business

environment and steps to catalyze donor project financing related to Kosovo's large development needs Class and Group Actions in Arbitration Bernard Hanotiau, Eric A. Schwartz, 2016-09-23 Several decades ago a typical arbitration would involve one claimant against one respondent. Over the years more and more cases involve several claimants against several respondents. Today one third of all international ICC arbitrations seem to involve multiparty cases, multi-contract cases involving multiple contracts, multiple parties. The evolution has continued and the debate today is whether it would be possible for a class of people in the same situation or a group of citizens having the same interest to start one single arbitration procedure as a group or as a class. This publication examines the complex issues involved in class or group arbitration on a comparative law basis. Is there a place for such proceedings within the framework of the arbitration process? Class action procedures as developed in the United States court system and more recently in Canada are almost nonexistent in Europe. The European Commission has advocated collective redress as an important means of access to justice but class actions have found little enthusiasm in the Member States. The book highlights the lessons which have been learned from the experience of cases in the US and in Europe. What does the future hold for class, collective and mass arbitrations? Are they a marginal phenomenon or has their potential yet to be realized? What are possible solutions to the issues that have been encountered? Can we expect to see more of such arbitrations in the future? Written by arbitrators, academics and practitioners, this Dossier will provide the answers to these questions and many more Someone Else's Empire Tom Stevenson, 2023-11-07 Someone's Else's Empire coolly reassesses Britain's relationship with the United States. Elite descriptions of Britain's position in the world, punching above our weight, are untenable. Tom Stevenson argues. Yet there is a refusal in most parts of society to examine the assumptions behind them. Half a century after British withdrawal from east of Suez, why has the Indo-Pacific tilt become a Whitehall priority? Why are newly opened Persian Gulf bases working side by side with Saudi and Emirati forces engaged in the catastrophic war on Yemen? The impetus for so many decisions about British foreign policy comes from a desire to maintain lieutenant rank with Washington. But British leaders and defence specialists tend to dislike seeing Britain framed by American power. A great effort is required to clear away the build-up of irrelevant nostalgic detritus around Global Britain. Stevenson looks at the infrastructure of a US world order re-energised by Russia's invasion of Ukraine and fits the UK into the picture without the usual euphemisms. It is one thing to station military forces around the world to maintain your empire, he observes, but quite another to do so for someone else's The National Security Enterprise Roger Z. George, Harvey Rishikof, 2017 This second edition of The National Security Enterprise provides practitioners insights into the operations, missions and organizational cultures of the principal national security agencies and other significant institutions that shape the US national security decision-making process. Unlike some textbooks on American foreign policy, this book provides analysis from insiders who have worked at the National Security Council, the State Department, the Department of Defense, the intelligence community and the other critical entities included in the book. The book

explains how organizational missions and cultures create the labyrinth in which a coherent national security policy must be fashioned Understanding and appreciating these organizations and their cultures is essential for formulating and implementing coherent policies This second edition includes four new chapters Congress DHS Treasury and USAID and updates to the text throughout It covers the many changes instituted by the Obama administration implications of the government campaign to prosecute leaks and lessons learned from more than a decade of war in Afghanistan and Iraq

Injustice Danny Dorling,2015-06-03 In the five years since the first edition of Injustice there have been devastating increases in poverty hunger and destitution in the UK Globally the richest 1% have never held a greater share of world wealth while the share of most of the other 99% has fallen in the last five years with more and more people in debt especially the young Economic inequalities will persist and continue to grow for as long as we tolerate the injustices which underpin them This fully rewritten and updated edition revisits Dorling s claim that Beveridge s five social evils are being replaced by five new tenets of injustice elitism is efficient exclusion is necessary prejudice is natural greed is good and despair is inevitable By showing these beliefs are unfounded Dorling offers hope of a more equal society We are living in the most remarkable and dangerous times With every year that passes it is more evident that Injustice is essential reading for anyone concerned with social justice and wants to do something about it

New Urban Management: Attracting Value Flows to Branded Hubs A. Anttiroiko,2015-06-02 New Urban Management discusses how the logic of economic flows poses a challenge to local governments throughout the world The book argues that the increased fluidity in economic life must have its reflection in local economic development policy

Contemporary Oligarchies in Developed Democracies Shelly Gottfried,2019-04-01 The book analyzes concentrations of wealth and power in developed democracies It shows that economic measures which states adopted during the 1980s and 1990s had evolved first into liberal oligarchy and later after the 2007 2008 global financial crisis into illiberal and populist oligarchy The shape and content of these two kinds of oligarchy have been determined largely because of practices and political strategies that powerful state and market actors employed This project will appeal to a wide audience including academics researchers students and anyone who is interested in oligarchy political power IR political economy and sociology

House, 2009 Some vols include supplemental journals of such proceedings of the sessions as during the time they were depending were ordered to be kept secret and respecting which the injunction of secrecy was afterwards taken off by the order of the House Minerals Yearbook Mines Bureau, Geological Survey, Interior Department, 2018-04-19 The region of Europe and Central Eurasia defined in this volume encompasses territory that extends from the Atlantic Coast of Europe to the Pacific Coast of the Russian Federation It includes the British Isles Iceland and Greenland a self governing part of the Kingdom of Denmark Included are mineral commodity outlook tables plus global overview research for particularly commodities within a specific regions countries are presented throughout the text Manufacturers of these metals and commodities along with trade brokers that may specialize in imports and exports political scientists and economists may also be interested in this volume Students pursuing research on specific metals and mineral commodities for world economy courses may be interested in this volume State against Civil Society Cameron Ross, 2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of *Europe Asia Studies* *Shadow Networks* Francisco Louçã, Michael Ash, 2018-10-03 The 2007-08 financial crisis surprised many economists and the public But how did the crisis come about why was it so deep and why has the clean up been so slow and painful Many accounts of the crisis focus on renegade activity in marginal financial sectors *Shadow Networks* challenges this pervading view and sets out to demonstrate that far from a

dissident branch the shadow finance that initiated the crisis is tightly networked with and highly profitable for bank based finance The collapse was not an accident but baked into the system of finance from the start Shadow Networks traces the complex web of power that caused crisis and gives vivid descriptions of the actors in the quarter century leading up to 2007 to explain how the now decade long crisis took shape Shadow Networks Financial Disorder and the System that Caused Crisis is a probing examination of the roles of the powerful elite It traces the networks and institutions that support a finance focused market centered model of economy and society from their ascendancy to their surprising resilience in the face of manifest failures

National Security, Democracy, & Good Governance in Post-Military Rule Nigeria, Volume One

Dr. Dan Mou, 2016-12-30 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent 71% of Nigerias population still living below poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness the worst civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use

Chains of Finance

Diane-Laure Arjaliès, Philip Grant, Iain Hardie, Donald MacKenzie, Ekaterina Svetlova, 2017-06-23 Investment is no longer a matter of individual savers directly choosing which shares or bonds to buy Rather most of their money flows through a chain an often extended sequence of intermediaries What goes on in that chain is of huge importance The world s investment managers who are now almost as well paid as top bankers control assets equivalent in value to around a year of total global economic output In Chains of Finance five social scientists discuss the ways in which the intermediaries in the chain influence each other channel the flows of savers money enhance investment decisions and form audiences for each other s performances of financially competent selves The central argument of the book is that investment management is fashioned profoundly by the opportunities and constraints this chain creates Whether chains constrain or enable however they always entangle tying intermediaries to each other silently and profoundly shaping the investment management industry Chains of Finance is a novel analysis that will make students social scientists financial professionals and regulators looking at the workings of financial markets in a new light A must read for anyone looking for insights into the decision making processes of investment managers and those influenced by and working for them

Medicine, health and Irish experiences of conflict, 1914-45

David Durnin, Ian Miller, 2016-10-28 This book explores Irish experiences of medicine and health during the First

and Second World Wars the War of Independence and the Civil War It examines the physical mental and emotional impact of conflict on Irish political and social life as well as medical scientific and official interventions in Irish health matters The contributors put forward the case that warfare and political unrest profoundly shaped Irish experiences of medicine and health and that Irish political social and economic contexts added unique contours to those experiences not evident in other countries In pursuing these themes the book offers an original and focused intervention into a central but so far unexplored area of Irish medical history

Crisis Elections, New Contenders and Government Formation Anna Bosco, Susannah Verney, 2018-12-07 The parliamentary elections of 2015 16 in Greece Spain and Portugal had extraordinary consequences bringing repeat elections unprecedented processes of government formation and uncharted government outcomes Greece formed a coalition of radical left and radical right and Portugal its first government supported by the communist party while Spain took ten months to get a government These developments are especially astonishing in three states which in previous decades were a byword for democratic stability After the transitions following the fall of their dictatorships in the 1970s Greece Spain and Portugal established bipolar electoral competition and predictable patterns of government formation But more recently all three countries have been in the frontline of the economic crisis and austerity implementation triggering electoral realignments and turning the radical left into a major player This volume offers essential understanding of the political destabilisation of Southern Europe It includes detailed analyses of all five crisis elections and of Greece's bailout referendum It also provides studies of the five new contender parties SYRIZA Podemos Ciudadanos the Bloco Esquerda and the Portuguese Communist Party which played a key role in government formation for the first time The chapters originally published as a special issue in *South European Society and Politics*
