LAB EXERCISE 5: Lizard Evolution Virtual Lab

Answer the following questions as you finish each module in the virtual lab.

MODULE 1: Introduction

At the beginning of the virtual lab, you were asked to select eight lizards from a category. What criteria did you use to select your lizards?

My criteria were: size, color, and shape of the lizards.

Did your lizards grow different body types?

Yes, because the lizards that were selected to grow different body types were selected based on their body type. For example, the lizards that were selected to grow different body types were selected based on their body type.

An adaptation is a structure or function that the organism has as a response to its environment. The ability to survive and reproduce is a particular adaptation. Provide one example and an explanation of an adaptation of the lizard you chose.

The adaptation of the lizard you chose is its ability to survive and reproduce. This is because the lizard you chose is able to survive and reproduce in its environment.

Provide one evolutionary explanation for why the lizard you chose is able to survive and reproduce (i.e., the genetic material it has inherited).

The evolutionary explanation for why the lizard you chose is able to survive and reproduce is that it has inherited the genetic material it has inherited.
