How to write a characterization Characters can be presented in two ways: a) direct (explicit) characterization: the narrator or a character tells the reader what sort of person a character is b) indirect (implicit) characterization: the reader has to draw conclusions about what the character is like by what the character says or does Step 1

Make a grid and note down: •

what the narrator or other characters say about the character you are dealing with

•

what the character says about him- or herself

•

the character's outward appearance (e.g. what he or she looks like)

•

the character's behaviour (e.g. what he or she says, thinks or does)

add the lines from the text so that you can find the passages later more easily Step 2

From your notes •

draw conclusions about the character (e.g. what kind of person is he or she?) from what he or she says, thinks or does find appropriate adjectives
