Je Reviens Te Chercher

**George Gordon Byron Baron
Byron, Lord George Noël Gordon Byron**

Je Reviens Te Chercher:

Les Oeuvres Choisies de George Sand. The Selected Works of George Sand George Sand, Le jeune prince Karol de Roswald venait de perdre sa mère lorsqu'il fit connaissance avec la Floriani. Il était plongé encore dans une tristesse profonde et rien ne pouvait le distraire. La princesse de Roswald avait tout pour lui : une mère tendre et parfaite. Elle avait prodigué son enfance d'oblation et souffreteuse les soins les plus assidus et le dévouement le plus entier levé sous les yeux de cette digne et noble femme. Le jeune homme n'avait eu qu'une passion réelle dans toute sa vie : l'amour filial. Cet amour réciproque du fils et de la mère les avait rendus exclusifs et peut-être un peu trop absolus dans leur manière de voir et de sentir. La princesse était d'un esprit supérieur et d'une grande instruction ; il est vrai son entretien et ses enseignements semblaient pouvoir tenir lieu de tout au jeune Karol. La franchise de celui-ci s'était opposée à ces études classiques pénibles si chèrement tenaces qui ne valent pas toujours par elles-mêmes. Les leçons d'une mère claire mais qui ont cet avantage indispensable de nous apprendre à travailler parce qu'elles sont comme la clef de la science de la vie. La princesse de Roswald ayant carté les pédagogues et les livres par ordonnance des médecins s'était attachée à former l'esprit et le cœur de son fils par sa conversation, par ses récits, par une sorte d'insufflation de son être moral que le jeune homme avait aspirée avec délices. Il était donc arrivé à savoir beaucoup sans avoir rien appris. Mais rien ne remplace l'expérience et le soufflet que dans mon enfance on donnait encore aux marmots pour leur graver dans la mémoire le souvenir d'une grande motion, d'un fait historique, d'un crime capital ou de tout autre exemple à suivre ou à éviter. N'était-ce pas chose si naïve que cela nous paraît aujourd'hui ? Nous ne donnons plus ce soufflet nos enfants mais ils vont le chercher ailleurs et la lourde main de l'expérience l'applique plus rudement que ne ferait la nôtre. Le jeune Karol de Roswald connut donc le monde et la vie de bonne heure ; de trop bonne heure peut-être mais par la théorie et non par la pratique. Dans le louable dessein d'élever son méseigneur ne laissa approcher de lui que des personnes distinguées dont les préceptes et l'exemple devaient lui être salutaires. Il sut bien que dehors il y avait des méchants et des fous mais il n'apprit qu'à les éviter nullement les connaître. On lui enseigna bien à secourir les malheureux ; les portes du palais où coula son enfance étaient toujours ouvertes aux nécessiteux mais tout en les assistant il s'habitua à priser la cause de leur détresse et regarder cette plaie comme irrémédiable dans l'humanité. Le désordre, la paresse, l'ignorance ou le manque de jugement sources fatales d'égarement et de misère lui parurent avec raison incurables chez les individus. On ne lui apprit point à croire que les masses doivent et peuvent insensiblement s'en affranchir et qu'en prenant l'humanité corps corps en discutant avec elle en la gourmandant et la caressant tour à tour comme un enfant qu'on aime en lui pardonnant beaucoup de rechutes pour en obtenir quelques progrès on fait plus pour elle qu'en jetant ses membres perclus ou gangrenés le secours restreint de la compassion.

Lesson Billy Georgette, 2014-03-25 Being sent for piano lessons was probably the single worst thing that could have happened in my young life But thanks to an exceptional lady and piano teacher named Florence Powers I wound up unexpectedly becoming a professional piano player Here are some curious things about the piano that I picked up along the way Playing the piano has got to be one of life's greatest treasures In my estimation there are few other activities that can even begin to compare with the ability to play this amazing instrument As you can probably guess I have the highest regard for those individuals who have mastered the art of playing the piano Some performers have taken the art to a very high level often out of the reach of most players But my aim here is to present a simple accessible approach on learning how to listen to or how to approach playing the piano for one's own pleasure first and foremost This self-centered idea doesn't necessarily imply being selfish but it probably does require a slight adjustment to one's priorities However if you can get around this inconvenience the possibilities are sitting right there in front of you and all you have to do is reach out and take My aim here is to demystify the piano for both listeners or those who wish to learn how to get started in learning how to play this amazing instrument In any event I feel that pleasure can be derived by having a wider understanding as to just what the piano actually is And while a book such as this one may be helpful to those who wish to learn to play the piano there is no substitute for a live teacher However it's extremely important to find a teacher that can fulfill one's personal musical taste and ambition There is much involved if a student wishes to become a proficient music reader thus having a good teacher is essential to success in this area Take your time in finding the right one and good luck However before looking at the piano it's also important to establish what kind of music one is interested in whether for listening or performing For purposes of this book I have arbitrarily broken it down into four major forms Classical Standards Popular and Jazz Classical leads the list as the music that has been around longer much longer than the other two forms of music It represents the foundation of all of today's music Much of it is seriously challenging to play and requires years of dedicated practice At the concert level Olympic style

discipline prevails as the techniques of performance far surpasses the scope of this book Be that as it may classical music has an abundance of priceless melodies that can be played in a simplified manner while still retaining their pure magic for listeners and pianists Music operates on principles that were founded in the past 600 years they carry with them an enormous amount of human cultural genius including the invention of equal temperament **Guide de l'assistant**
