*Cultural and Tourism Innovation in the Digital Era* Vicky Katsoni, Thanasis Spyriadis, 2020-02-13 This book explores a wide range of emerging cultural heritage and other tourism issues that will shape the future of hospitality and tourism research and practice in the digital and innovation era. It offers stimulating new perspectives in the fields of tourism travel, hospitality, culture and heritage, leisure and sports within the context of a knowledge society and smart economy. A central theme is the need to adopt a more holistic approach to tourism development that is aligned with principles of sustainability. At the same time, the book critically reassesses the common emphasis on innovation as a tool for growth-led and market-oriented development. In turn, fresh approaches to innovation practices underpinned by ethics and sustainability are encouraged and opportunities for the exploration of new research avenues and projects on innovation in tourism are highlighted. Based on the proceedings of the Sixth International Conference of the International Association of Cultural and Digital Tourism IACuDiT and edited in collaboration with IACuDiT, the book will appeal to a broad readership encompassing academia, industry, government and other organizations.

*Mastering ArcGIS Pro* Maribeth Hughett Price, 2023 Welcome to *Mastering ArcGIS Pro*, a detailed primer on learning the latest ArcGIS software by Esri Inc. This book is designed to offer everything you need to master the basic elements of GIS. Notice: ArcGIS Pro, ArcGIS, ArcMap, ArcCatalog, ArcGIS Desktop, ArcInfo, Workstation and the other program names used in this text are registered trademarks of Esri Inc. The software names and the screen shots used in the text are reproduced by permission. For ease of reading, the symbol has been omitted from the names; however, no infringement or denial of the rights of Esri is thereby intended or condoned by the author. A new text for a new GIS experience. Although the concepts of GIS have remained fairly constant over time, the software is continually evolving. With the release of ArcGIS Pro, the latest software in the Esri GIS family, a new generation of GIS has arrived. ArcGIS Pro has a 64-bit multithreaded architecture, uses ribbon-style menus, integrates 2D and 3D applications and is closely tied to ArcGIS Online. This text constitutes a major rewrite of *Mastering ArcGIS*, a book that covered GIS concepts and skills using the ArcGIS Desktop programs of ArcMap and ArcCatalog. Although the GIS concepts largely remain the same in both texts, the implementation and in some cases the terminology has changed. The new software has also prompted a reorganization of the book in several important ways. First, the book has been refocused on the basics of GIS. The ArcGIS Pro software capabilities are improving with each new version but have not yet completely matched the capabilities of ArcMap. Partly for this reason and partly to better match the rhythm of a semester, the book is now presented in 12 chapters, leaving time for instructors to better incorporate exams and projects within the semester. Some of the more advanced and less frequently used skills such as planar topology and standards-based metadata have been left for students to explore on their own. Second, the book includes some new topics. Raster data management has been discussed in a new chapter to acquaint students with compiling and processing raster data sets, supplementing a similar chapter on vector data management. ArcGIS

Pro was designed to foster the sharing of GIS data and workflows and these enhanced capabilities are explored in another new chapter including how to prepare a database for collecting data using mobile devices

**Mastering ArcGIS with CD Videoclips** Maribeth Price, 2009-01-20 Price Mastering ArcGIS is an introductory GIS text that is designed to offer everything you need to master the basic elements of GIS The author's step by step approach helps students negotiate the challenging tasks involved in learning sophisticated GIS software This text employs a carefully developed learning system to help students use ArcView 9.3 or ArcGIS Desktop or higher to set up and solve GIS problems An innovative and unique feature of Mastering ArcGIS is its accompanying CD ROM with narrated video clips that show students exactly how to perform chapter tutorials before attempting an exercise on their own

**Recontextualising Geography in Education** Mary Fargher, David Mitchell, Emma Till, 2021-11-10 In this book international geography educators discuss the ways in which geographical knowledge is recontextualised in schools and consider effective approaches to facilitate improve and advance geography education in research and practice It addresses key topics in recontextualising geography such as the epistemic relationships between the university discipline and the school subject designing and evaluating the geography curriculum the role of students in the transformation of knowledge in the classroom and selecting and transforming geographical content knowledge for the primary school curriculum At an international level the contributors and editors bring together an advanced collection of research and discussion surrounding the opportunities and challenges of recontextualising geography in education The book is of interest to geography educators internationally including academics at universities teachers in schools and professional geographers with an interest in education
