Trends and Issues in Interdisciplinary Behavior and Social Science Ford Lumban Gaol, Fonny Hutagalung, Chew Fong Peng, Zulkifli Md Isa, A.R. Rushdan, 2017-08-07 Trends and Issues in Interdisciplinary Behavior and Social Science contains papers presented at the 5th International Congress on Interdisciplinary Behavior and Social Science 2016 ICIBSoS 2016 held 5-6 November 2016 in Jogjakarta Indonesia. The 24 papers cover every discipline in all fields of social science, discussing many current trends and issues 21st century society is facing especially in Southeast Asia. The topics include literature, family, culture, studies, behavior, studies, psychology, and human development, religion, and values, social issues such as urban poverty and juvenile crisis, driving behavior, well-being of women, career, women, career, performance, happiness, social adjustment, quality of life, among patients, job stress, and religious coping, etc. The issues are discussed using scientific quantitative or qualitative methods from different academic viewpoints. **Islam and Popular Culture** Karin van Nieuwkerk, Mark LeVine, Martin Stokes, 2016-04-12 Popular culture serves as a fresh and revealing window on contemporary developments in the Muslim world because it is a site where many important and controversial issues are explored and debated. Aesthetic expression has become intertwined with politics and religion due to the uprisings of the Arab Spring while at the same time Islamist authorities are showing increasingly accommodating and populist attitudes toward popular culture. Not simply a westernizing or secularizing force as some have asserted, popular culture now plays a growing role in defining what it means to be Muslim. With well-structured chapters that explain key concepts clearly, *Islam and Popular Culture* addresses new trends and developments that merge popular arts and Islam. Its eighteen case studies by eminent scholars cover a wide range of topics such as lifestyle, dress, revolutionary street theater, graffiti, popular music, poetry, television, drama, visual culture, and dance throughout the Muslim world from Indonesia, Africa, and the Middle East to Europe. The first comprehensive overview of this important subject, *Islam and Popular Culture* offers essential new ways of understanding the diverse religious discourses and pious ethics expressed in popular art productions, the cultural politics of states and movements, and the global flows of popular culture in the Muslim world. *Constructing Risk* Stephen O. Bender, 2021-08-13 Reviewing current policies and practices, the book assesses the financial, economic, and physical risk of building in hazardous areas and looks at how societies approach economic development while trying to create a more resilient built environment in spite of the dangers. It examines the vulnerability of economic and social infrastructure to natural hazard events, looks at policies which imperil infrastructure, and proposes new development approaches to be undertaken by sovereign states, international development banks, NGOs, and bilateral aid agencies. *Question Everything* New Scientist, 2016-07-04
